RE: Request for Administrative Approval  
of an Unorthodox Location  
Jicarilla 464 #15  
2155' FSL & 1840' FEL  
Section 32, T30N, R3W  
Rio Arriba County, New Mexico

Dear Mr. LeMay:

We request administrative approval of an unorthodox location for our Jicarilla 464 #15 Pictured Cliffs formation gas well, located 2155' FSL & 1840' FEL, Section 32, T30N, R3W, Rio Arriba County, New Mexico. This well is 305 feet too close to the quarter section line which divides the N1/2 and the S1/2 of Section 32, T30N, R3W. You will note from the enclosed topographic map that there is no other area for an economically buildable location in this quarter section due to the rough topography. Also enclosed is a lease map indicating that Robert L. Bayless is the operator of all surrounding 160 acre tracts to this well (except to the east which is unleased acreage) as well as a well location and acreage dedication plat for this well.

If you need any further information in this regard, please advise.

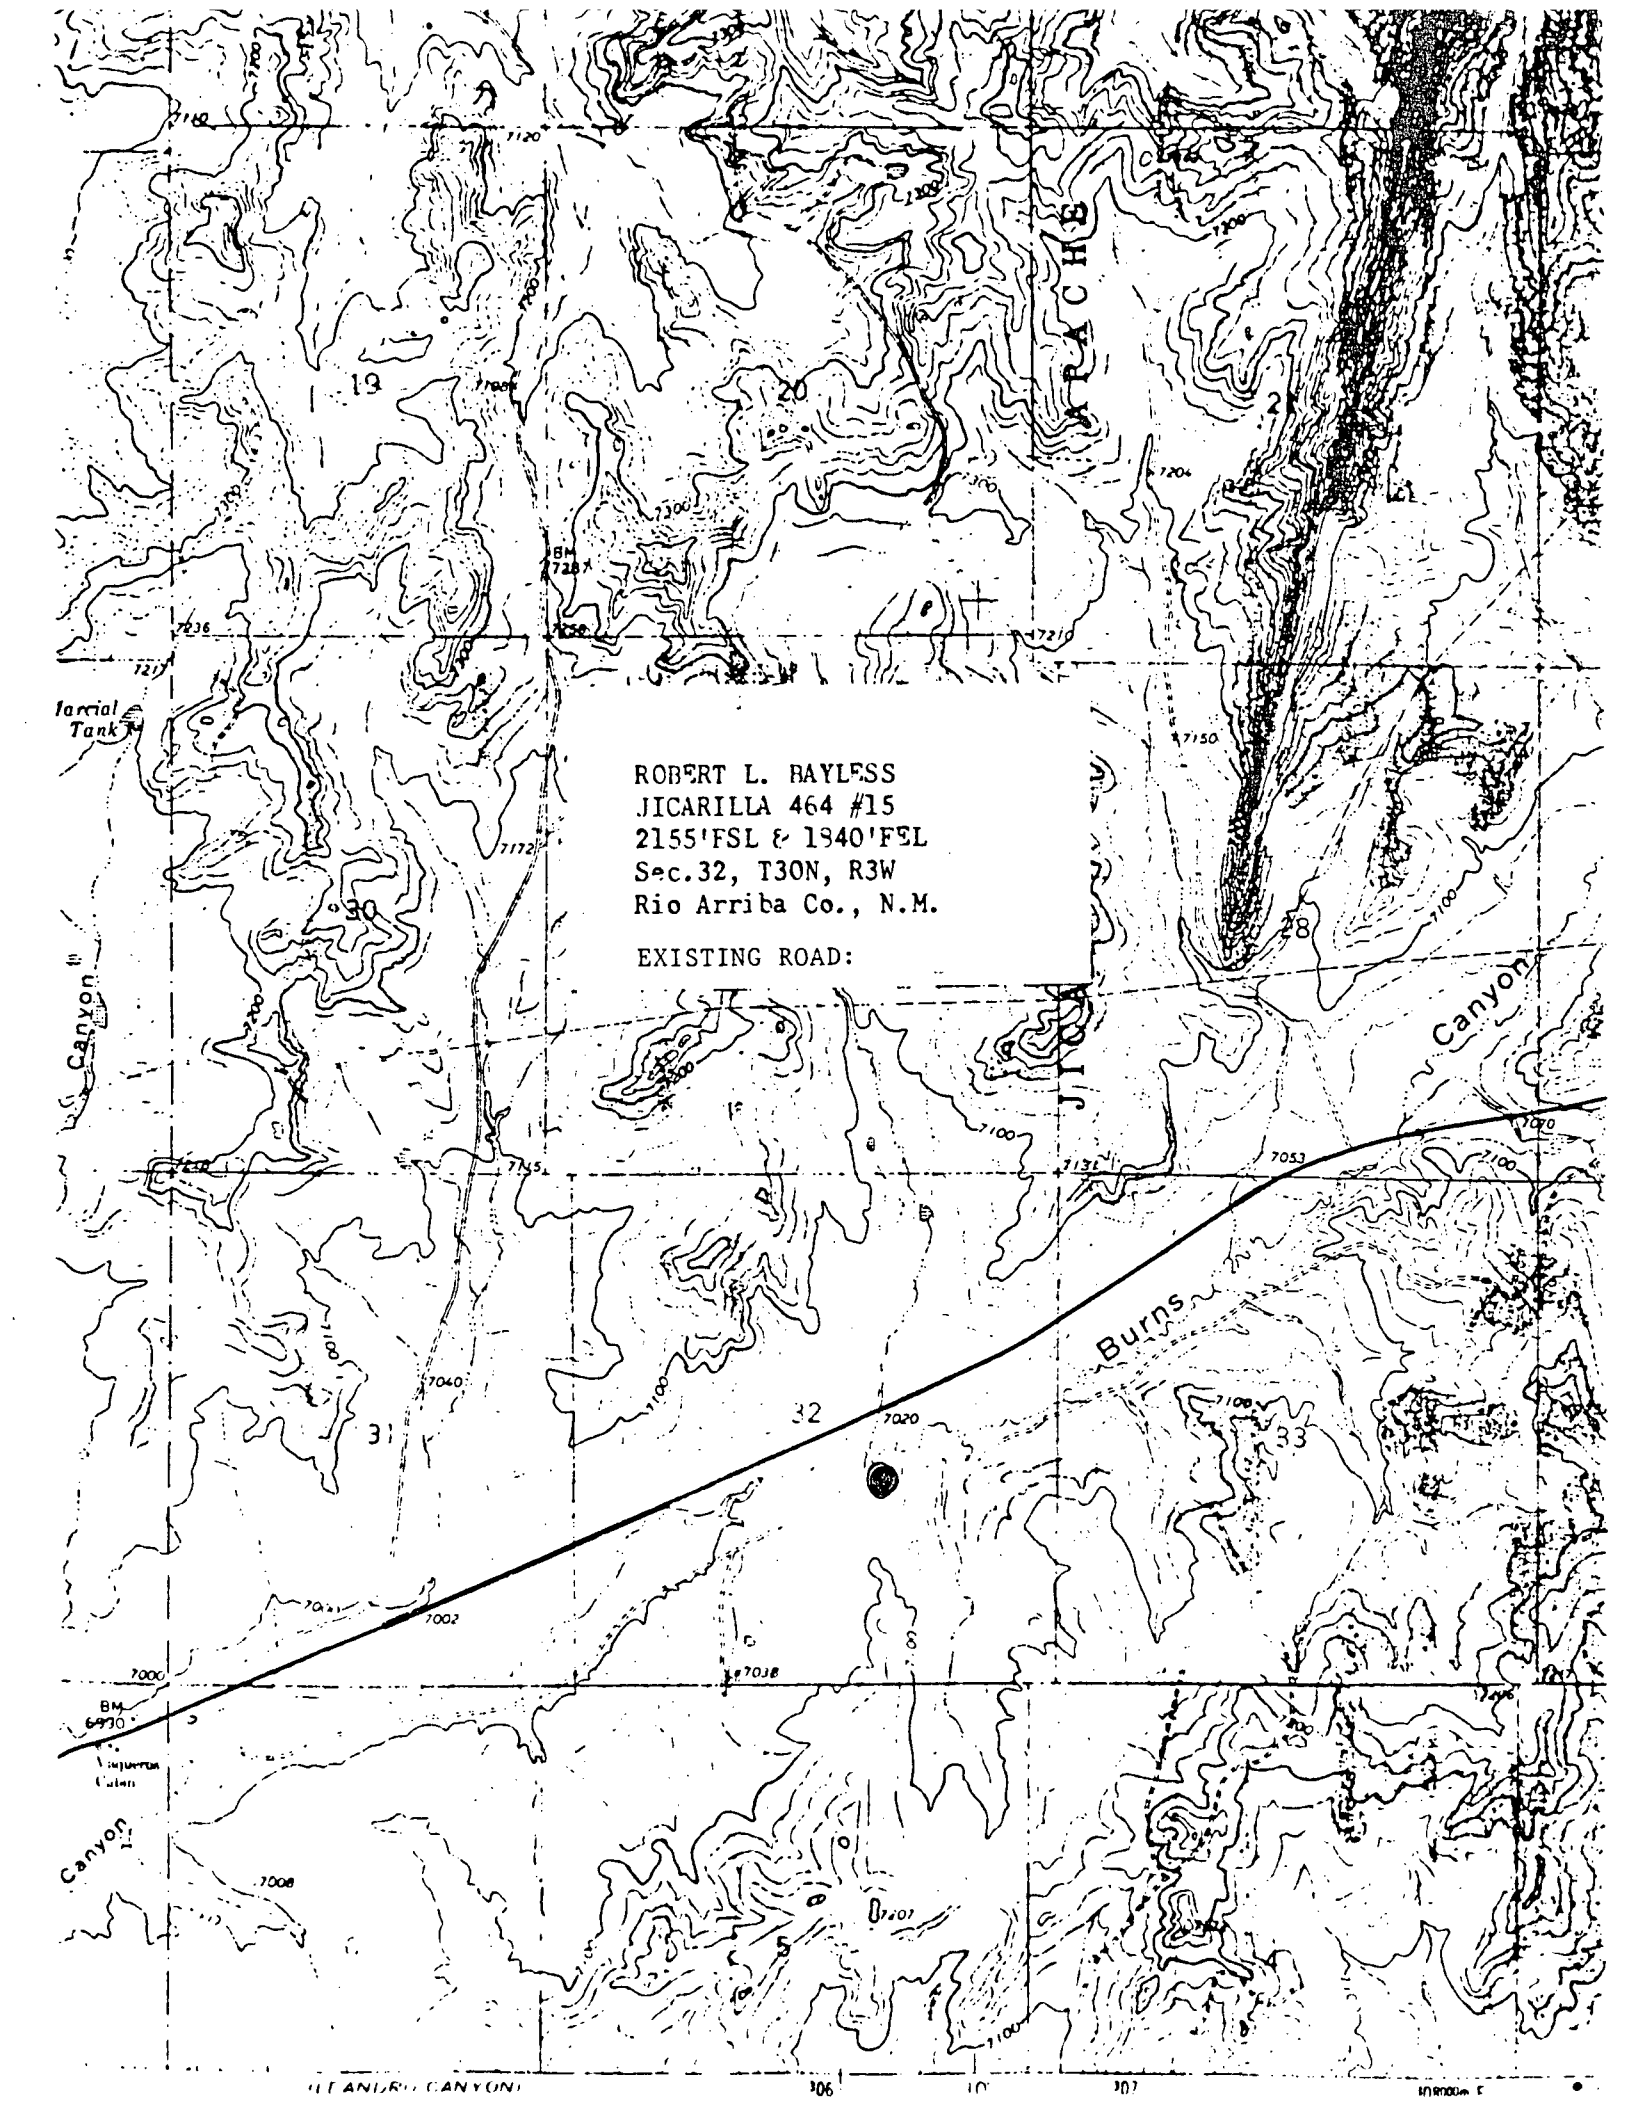

Yours truly,

*Kevin H. McCord*
