JULY 26, 1990

NEW MEXICO GAS & OIL CONSERVATION
P. O. BOX 2088
SANTA FE, NEW MEXICO 87504-2088

ATTN: MICHAEL STOGNER

It is intended to locate the D. J. Simmons Company's CAP Com 7 #1 at 1450' FSL & 790' FWL, Section 7, T28N, R10W, San Juan County, New Mexico. This well will be drilled and completed in the Fruitland Coal formation.

The existence of existing wells and pipelines make it impractical to build an orthodox location. The subject location is adjacent to and directly north of an existing well pad resulting in minimal surface disturbance. Also a deep arroyo northeast of the location makes this area undesirable.

The offset operators have been notified (see attached receipts) of the need for an unorthodox location for this well.

Should you have any questions please feel free to contact Roderick Pinkett at (505) 326-3753. I thank you in advance for your attention to this matter.

Sincerely yours,

D. J. SIMMONS CO.

ATTN: ERNIE BUSH

It is intended to locate the D. J. Simmons Comany's CAP Com 7 #1 at 1450' FSL & 790' FWL, Section 7, T28N, R10W, San Juan County, New Mexico. This well will be drilled and completed in the Fruitland Coal formation. The existence of existing wells and pipelines make it impractical to build an orthodox location.

After reviewing the accompanying topographic map designating the orthodox window and the proposed well location, please sign and return this document within 20 days to Michale Stogner at the New Mexico Oil Conservation Commission in Santa Fe, New Mexico.

Should you have any questions please feel free to contact me at (505) 326-3753. I thank you in advance for your attention to this matter.

Sincerely yours,

D. J. SIMMONS CO.

WELL LOCATION AND ACREAGE DEDICATION PLAT

All Distances must be from the outer boundaries of the section

Operator D. J. Simmons			Lease Cap Com.		Well No. 7 #1
Unit Letter	Section 7	Township 28 North	Range 10 West	County NMPM San Juan	
Actual Footage Location of Well: <div style="display: flex; justify-content: space-between;"> 1450 feet from the South line and 790 feet from the West line </div>					
Ground level Elev. 5746	Producing Formation Fruitland		Pool Basin Fruitland		Dedicated Acreage: 128.03 Acres

257.95

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interest of all owners been consolidated by communitization, unitization, force-pooling, etc.?
☐ Yes ☒ No If answer is "yes" type of consolidation _____
 If answer is "no" list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.)
 No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interest, has been approved by the Division.

OPERATOR CERTIFICATION

I hereby certify that the information contained herein is true and complete to the best of my knowledge and belief.
