Gentlemen:

Maralex Resources, Inc. (Maralex) as stated in our applications for unorthodox locations dated October 5, 1990, hereby submits the return receipt cards signifying receipt by the offset operators of notification of our applications.

As with the applications, the notifications for the different wells were submitted in one package to each of the operators. Therefore, there is only one card per operator. Copies of the applications were hand delivered to the Bureau of Land Management on October 10, 1990.

Please let us know at your earliest convenience the status of our applications so that we may proceed with the drilling and completion of our wells prior to expiration of the Section 29 tax credit.

Sincerely,

A. M. O'Hare, P.E.
President
Maralex Resources, Inc.

SENDER: Complete items 1 and 2 when additional services are desired, and complete items 3 and 4. Put your address in the "RETURN TO" space on the reverse side. Failure to do this will prevent this card from being returned to you. The return receipt fee will provide you the name of the person delivered to and the date of delivery. For additional fees the following services are available: Consult postmaster for fees and check boxes for additional services requested.

Show to whom delivered, date, and addressee's address. Restricted Delivery (Extra charge)

Re: Unorthodox Location
Marron W.N. Federal Com No. 9
NE Sec. 27, T27N, R8W
San Juan County, NM

Gentlemen:

Maralex Resources, Inc. (Maralex) hereby submits the following application in triplicate for an unorthodox location for the subject well. Maralex is concurrently submitting an application for permit to drill (see Attachment No. 1) the subject well with the Bureau of Land Management.

The proposed well is located 1760' from the north line and 360' from the east line of Section 27. Attachment No. 2 is a completed C-102. An orthodox location for the well could not be found in the northeast quarter of Section 27 due to the topography and an existing pipeline. Directional drilling of the well is not feasible due to the shallow total depth and the distance from a legal location to the surface location required due to the above mentioned cause.

Topographic obstructions, as shown on Attachment No. 3 include steep slopes and cliff faces from Blanco Mesa into Largo Canyon. There do not appear to be any existing wells within the orthodox location window in this quarter section.

Attachment No. 4 shows existing wells in the area and all offset operators. To the best of our knowledge, the information on this map is current and correct. None of the offsetting wells are currently producing from the Basin Fruitland Coal pool.

By copy of this letter sent through certified mail, the offset operators are being notified of this application for unorthodox location. They are being requested to return to the NMOCD an executed waiver of objections to the unorthodox

location that is provided at the end of this letter. Maralex will submit to the NMOCD the return receipt cards signifying receipt by the offset operators of this notification as soon as they are returned to us.

By virtue of our purchase of ARCO's operating rights to the Fruitland Formation in all of Township 27 North, Range 8 West, San Juan County, New Mexico, Maralex is now the operator of the shallow rights designated under ARCO on Attachment No. 4.

Please call me at (303) 571-4220 at your earliest convenience if any additional information is required for processing of this application.

Sincerely,

A. M. O'Hare, P.E.
