It is our understanding that ownership is often diverse between these wells within this Pool and the final sales points will be (i) in the SW/4 of Section 34, T25N, R10W, and (ii) in the SW/4 of Section 1, T24N, R10W.

Each of these wells shall be equipped with its own gas allocation meter so that gas production will be continuously metered prior to commingling for sales. Oil production shall not be commingled.

It is the responsibility of the producer to notify the transporter of this commingling authority. The operator shall notify the Aztec district office of the Division upon commencement of commingling operations.

Done, at Santa Fe, New Mexico on November 19, 2007.
