Farmington, NM 87499-4289

Attention: Peggy Bradfield

*Administrative Order NSL-2931*

Dear Ms. Bradfield:

Reference is made to your application dated September 11, 1990 for a non-standard Basin-Fruitland coal gas well location for your existing Magnolia Com Well No. 1 which was drilled in 1958 and completed in the Ballard Pictured Cliffs Pool at a standard gas well location 1630 feet from the North line and 994 feet from the East line (Unit I) of Section 32, Township 27 North, Range 9 West, NMPM, San Juan County, New Mexico.

It is my understanding that the Pictured Cliffs zone will be properly plugged back and said well will be recompleted to the Basin-Fruitland Coal Gas Pool, which pursuant to the Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool as promulgated by Division Order No. R-8768, is unorthodox. Further, the E/2 of said Section 32 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of said Division Order No. R-8768, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

  
William J. LeMay  
Director
