Attention: Peggy Bradfield

*Administrative Order NSL-2933*

Dear Ms. Bradfield:

Reference is made to your application dated September 11, 1990 on behalf of Southland Royalty Company for a non-standard Basin-Fruitland coal gas well location for your existing A.D. Hudson Well No. 2 which was drilled in 1950 and completed in the Fulcher Kutz Pictured Cliffs Pool at a standard gas well location 990 feet from the North and West lines (Unit D) of Section 29, Township 27 North, Range 9 West, NMPM, San Juan County, New Mexico.

It is my understanding that the Pictured Cliffs zone will be properly plugged back and said well will be recompleted to the Basin-Fruitland Coal Gas Pool, which pursuant to the Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool as promulgated by Division Order No. R-8768, is unorthodox. Further, the W/2 of said Section 29 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of said Division Order No. R-8768, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

A handwritten signature in cursive script, appearing to read "William J. LeMay".
