Farmington, NM 87499-4289

Attention: Peggy Bradfield

*Administrative Order NSL-2934*

Dear Ms. Bradfield:

Reference is made to your application dated September 21, 1990 for a non-standard Basin-Fruitland coal gas well location for your existing Huerfano Unit Well No. 258 which was drilled in 1974 and completed in the Angel Peak Gallup Pool at a standard location 990 feet from the South and East lines (Unit P) of Section 36, Township 27 North, Range 10 West, NMPM, San Juan County, New Mexico.

It is my understanding that the Gallup zone will be properly plugged back and said well will be recompleted to the Basin-Fruitland Coal Gas Pool, which pursuant to the Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool as promulgated by Division Order No. R-8768, is unorthodox. Further, Lots 1 through 4 and the W/2 E/2 (E/2 equivalent) of said Section 36 shall be dedicated to the well forming a standard 300.20-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of said Division Order No. R-8768, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

  
William J. LeMay  
Director
