Attention: George F. Sharpe

*Administrative Order NSL-2963*

Dear Mr. Sharpe:

Reference is made to your application dated July 30, 1990 for a non-standard Basin-Fruitland coal gas well location for your existing Susco Federal Well No. 1 which was drilled in 1979 and completed in the WAW Fruitland Pictured Cliffs Pool at a standard gas well location 1840 feet from the South line and 1850 feet from the East line (Unit J) of Section 9, Township 26 North, Range 12 West, NMPM, San Juan County, New Mexico.

It is my understanding that the Pictured Cliffs zone will be properly plugged back and said well will be recompleted to the Basin-Fruitland Coal Gas Pool, which pursuant to the Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool as promulgated by Division Order No. R-8768, is unorthodox. Further, the S/2 of said Section 9 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of said Division Order No. R-8768, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

A handwritten signature in black ink, appearing to read "William J. LeMay".
