Re: Revision of Non-Standard Gas Proration Unit; Order R-~~2472~~
Texaco Inc. - E.E. Blinbry "A" Fed. NCT-1 #3
Communitized Lease, Jalmat Gas Pool
Section 31, T-23-S, R-37-E
Lea County, New Mexico

Gentlemen:

2474
Texaco Inc. respectfully requests administrative approval for a non-standard gas well location resulting from the multiple completion of the E.E. Blinbry "A" Fed. NCT-1 #3 with the Myers Langlie Mattix Unit #97 water injection well. NMOCD Order R-~~2472~~ established a non-standard gas proration unit of 355.96 acres for the multiple completion of the E.E. Blinbry "A" Fed. NCT-1 #2 Jalmat gas well with the Myers Langlie Mattix Unit #95 water injection well.

The unorthodox location created by the multiple completion is necessary for efficient gas production and increased gas reserves that would otherwise be unrecoverable. Upon the successful recompletion of the #3 well, all of the ensuing production will be simultaneously dedicated to the existing 355.96 acre non-standard gas unit. Offset owners are now being notified of the intended operations but there should be no opposition since many of them are doing similar workovers.

Texaco Inc. respectfully requests that the non-standard gas proration unit covered by R-~~4272~~ be amended to allow a Jalmat gas completion in the E.E. Blinbry "A" NCT-1 #3 (MLMU #97) as a non-standard gas well location.

Yours very truly,

James A. Head
