(Yates Petroleum) Squash Blossom AFU State 1	27053	W/2 SE/4	SWSE	36	24	10

Each of these wells shall be equipped with a gas allocation meter that will continuously meter gas production prior to commingling and these measurements shall be used to allocate production from the CDP to the wells according to the existing practice in this gathering system. If oil production exists, it shall be separated and sold on lease.

It is the responsibility of the producer to notify the transporter of this commingling authority. The operator shall notify the Aztec district office of the Division upon commencement of commingling operations on these wells.

Done, at Santa Fe, New Mexico on this 21st day of November, 2007.

MARK E. FESMIRE, P.E.,
Division Director
