Re: Britt-Laughlin Com No. 4

Simultaneous Dedication

Gentlemen:

We recently reentered and recompleted as a Eumont (Gas) producer the previously plugged and abandoned Graham Royalty, Ltd. - Laughlin No. 4 (now Doyle Hartman - Britt-Laughlin Com No. 4) located 660' FNL and 660' FEL (A), Section 8, T-20-S, R-37-E, Lea County, New Mexico. Due to the potential water problems that exist in the Eumont (Gas) zone in this area, the reentry of the existing wellbore provided the most economical approach and also eliminated the unnecessary waste of drilling a new well.

~~We hereby request administrative approval to simultaneously dedicate the Britt-Laughlin Com No. 4 to the existing 280-acre non-standard Eumont (Gas) proration unit consisting of the SE/4 and SE/4 SW/4 of Section 5 and the NE/4 NW/4, NE/4 NE/4 of Section 8, both in T-20-S, R-37-E, Lea County, New Mexico along with the previously existing Britt-Laughlin Com No. 1 (C-08-20S-37E) and Britt-Laughlin Com No. 6 (I-05-20S-37E). The current proration unit was created by NMOCD Force Pooling Order R-9199 dated June 15, 1990.~~

Three copies of a color-coded land map outlining the subject 280-acre Eumont (Gas) proration unit, as well as the location of our existing wells and the Britt-Laughlin Com No. 4 reentry, are enclosed for your review. Supplementing the enclosed color-coded land plat is a companion table describing by tract number all Eumont (Gas) proration units (including the operators of the Eumont rights) that offset the Britt-Laughlin Com No. 4.

Complete copies of this application have also been sent by certified mail to all offsetting parties owning Eumont (Gas) rights as described

on the enclosed plat and table. The following is a list of the offset
Eumont (Gas) operators:
