Re: Unorthodox Well Locations
Turner "B" Lease
Sections 20 & 29,
Twp. 17 S., Rge. 31 E., NMPM
Grayburg-Jackson Pool
Eddy Co., New Mexico

Dear Mr. Stogner:

Attached are copies of the notices sent to offset operators in response to your letter of June 12, 1991. Through and oversight we did not get copies of these letters sent to you. Please accept our apologies for this omission.

In addition, I have talked to representatives of both Yates Petroleum Corporation and Texaco, Inc. and neither thought they would have any objections to the locations.

Thank you for your assistance. If there is anything further that we need to do, please let me know.

Sincerely,

AVON ENERGY CORPORATION

Turner "B" #97
Twp. 17 S., Rge. 31 E.
Sec. 29: SW corner of SE $\frac{1}{4}$ NE $\frac{1}{4}$

Dear Mr. Young:

Avon Energy Corporation recently completed the captioned wells at the following locations; Turner "B" #94 - 1,350' FSL, 1,200' FEL, 20-17S-31E, Turner "B" #97 - 2,590' FNL, 1,200' FEL, 20-17S-31E. These are infield wells necessary to complete an efficient production and injection pattern within this secondary recovery unit.

It has come to our attention that notice to offset operators is required for these locations under Rule 104.F.IV. We have enclosed a plat for your information which shows the locations in relation to other wells in the field. Both of these wells are inboard to other producing and injection wells which are closer to the lease line.

If you have any questions, or if there is any other information that you need, please give us a call.

Sincerely,

AVON ENERGY CORPORATION
