RE: Lloyd #1  
990'FNL, 1650'FWL  
Section 24, T-30-N, R-11-W  
San Juan County, New Mexico

Dear Mr. LeMay:

This is a request for administrative approval for a non-standard gas well location in the Basin Fruitland Pool.

Meridian Oil plugged back and recompleted the Lloyd #1 well from the Aztec Pictured Cliffs pool to the Basin Fruitland Coal pool. This well is located at 990'FNL, 1650'FWL, Section 24, T-30-N, R-11-W, San Juan County, New Mexico. Application to perform this work was made August 18, 1988 and approved by the Bureau of Land Management August 19, 1988, prior to establishment of the northeast-southwest dedicated pattern established for the Basin Fruitland Coal pool. The plugback and recompletion work was performed in August 1989.

To comply with the New Mexico Oil Conservation Division rules, Meridian is submitting the following for your approval of this non-standard location:

1. C-102 plat showing location of the well;
2. Plat showing offset owners/operators;
3. Affidavit of notification of offset owners/operators;
4. Copy of Well Completion Log for original completion.

A copy of this application is being submitted to all offset owners/operators by certified mail with a request that they furnish your Santa Fe office with a Waiver of Objection, and return one copy to this office.

Sincerely yours,

Peggy Bradford  
encl.

## WAIVER

\_\_\_\_\_ hereby waives objection to Meridian Oil Inc.'s application for a non-standard location for their Lloyd #1 as proposed above.
