Attention: Donald R. Layton

*Administrative Order NSL-3055*

Dear Mr. Layton:

Reference is made to your application dated August 12, 1991 for a non-standard Allison Pennsylvanian oil well location for your existing Fox "C" State Well No. 1 which was drilled in the spring of 1959 to a total depth of 9775 feet at a standard oil well location, at the time, 2310 feet from the North and East lines (Unit G) of Section 36, Township 8 South, Range 36 East, NMPM, Roosevelt County, New Mexico. Said well was deemed dry and was abandoned in September of 1959.

It is my understanding that said well has been re-entered and recompleted in the Allison Pennsylvanian Pool, which pursuant to the Special Rules and Regulations for the Allison Pennsylvania Pool as promulgated by Division Order No. R-1389-B, is unorthodox. Further, W/2 NW/4 of said Section 36 shall be dedicated to the well forming a standard 80-acre oil spacing and proration unit for said pool.

By authority granted me under the provisions of Rule 3 of said Division Order No. R-1389-B, the above described unorthodox oil well location is hereby approved.

Sincerely,

A handwritten signature in cursive script, appearing to read "William J. Lemay / by M. Stogor".

WILLIAM J. LEMAY
