RE: **Skelly Unit Well No. 966**  
**1500 feet FSL & 1310 feet FWL (Unit L) (Unorthodox)**  
**NE/4SW/4 of Section 15, T-17 -S, R-31-E,**  
**NMPM, Eddy County, New Mexico**

**Administrative Order NSL-5729**

Dear Ms Edwards:

Reference is made to the following:

(a) your application (**administrative application reference No. pTDS0729559256**) submitted to the New Mexico Oil Conservation Division (the Division) in Santa Fe, New Mexico on October 22, 2007; and

(b) the Division's records pertinent to Chevron's request.

Chevron USA Inc., (Chevron) requests to drill its Skelly Unit Well No. 966 at an unorthodox Fren; Glorieta-Yeso oil well location as referenced above in Section 15, Township 17 South, Range 31 East, N.M.P.M., in Eddy County, New Mexico.

The NW/4SW/4 of Section 15 will be dedicated to this well to form a standard 40-acre oil spacing and proration unit. Chevron intends to test the Fren; Glorieta-Yeso Oil Pool. This pool is governed by the Division's Statewide Rules and Regulations which provide for wells on 40-acre spacing units to be located no closer than 330 feet to a quarter-quarter section line.

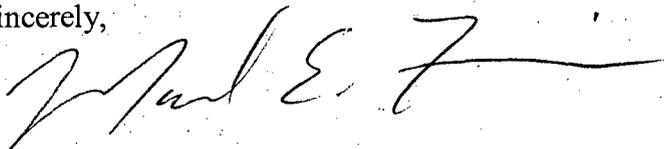

The location of the well is due to geological reasons, and Chevron expects to maximize production at this location.

Your application has been duly filed under the provisions of Division Rules 104. F. It is our understanding that the offsetting acreage has interest ownership identical in all respects, therefore no notice of this application is required.

Pursuant to the authority granted under the provisions of Division Rules 104. F(2), the above-described unorthodox Fren; Glorita-Yeso oil pool location is hereby approved.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark E. Fesmire", with a long horizontal flourish extending to the right.

Mark E. Fesmire, P.E.  
Director
