Application for Unorthodox Location
Omler Well No. 7
1650' FSL, 1650' FEL, Section 26-T28N-R10W
Basin Fruitland Coal Pool
San Juan County, New Mexico

Amoco Production Company hereby requests administrative approval for an unorthodox well location in the Basin Fruitland Coal Pool. Amoco plans to recomplate the existing Omler Well No. 7 from the Pictured Cliffs formation to the Fruitland Coal formation. This well is currently uneconomic and would be abandoned if not utilized for recompletion. The location of the well is 1650' FSL and 1650' FEL of Section 26-T28N-R10W. Although this location is orthodox for the Fulcher Kutz Pictured Cliffs pool, it is unorthodox in the Basin Fruitland Coal Pool due to the required NE-SW pattern. All existing wells in the orthodox location are currently economic producers and are not candidates for recompletion.

A copy of this application will be submitted to the offset operators by certified mail with a request that they furnish your Santa Fe office with a Waiver of Objection, and return one copy to this office. Attached is a plat showing the location of the well and offset operators and a copy of the Well Completion Report for the original completion.

Sincerely,

J. W. Hawkins

Application for Unorthodox Location
Omler Well No. 7
1650' FSL, 1650' FEL, Section 26-T28N-R10W
Basin Fruitland Coal Pool
San Juan County, New Mexico

Amoco Production Company hereby requests administrative approval for an unorthodox well location in the Basin Fruitland Coal Pool. Amoco plans to recomplete the existing Omler Well No. 7 from the Pictured Cliffs formation to the Fruitland Coal formation. This well is currently uneconomic and would be abandoned if not utilized for recompletion. The location of the well is 1650' FSL and 1650' FEL of Section 26-T28N-R10W. Although this location is orthodox for the Fulcher Kutz Pictured Cliffs pool, it is unorthodox in the Basin Fruitland Coal Pool due to the required NE-SW pattern. All existing wells in the orthodox location are currently economic producers and are not candidates for recompletion.
