Santa Fe, New Mexico 87504-2088

Attn: Mr. Michael Stogner

Dear Mr. Stogner:

BTA hereby requests administrative approval to plug back and test the Atoka formation in the above referenced well. This well was completed as a marginal Morrow producer 3/19/93 and is uneconomical to operate at less than 100 MCF per day.

BTA recompleted the Hudson State, Well No. 1-Y, which is an Atoka producer and located 860' FNL & 1980' FWL, in April, 1988. This well currently produces at a rate of 450 MCF per day and will be "Shut In" upon a successful completion of well No. 2 in the Atoka formation.

All offset operators and mineral owners have been notified and furnished a copy of our application by certified mail. Please advise, should further information be required to grant this application.

Sincerely,

DOROTHY HOUGHTON

Attention: Dorothy Houghton

Administrative Order NSL-3125

Dear Ms. Houghton:

Reference is made to your application dated June 3, 1992 for a non-standard gas well location for your Hudson State, 8016 JV-P Well No. 2 to be located 1980 feet from the North line and 990 feet from the West line (Unit E) of Section 11, Township 23 South, Range 34 East, NMPM, Antelope Ridge Morrow Gas Pool, Lea County, New Mexico. The N/2 of said Section 11 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of General Rule 104F.(2) the above-described unorthodox gas well location is hereby approved.

Sincerely,

A handwritten signature in dark ink, appearing to read "William J. Lemay".
