Attention: Dorothy Houghton

*Administrative Order NSL-3128*

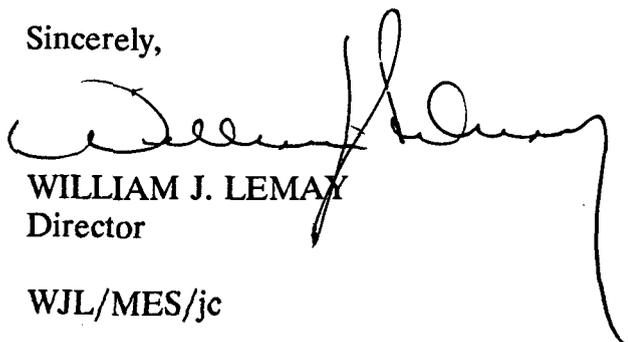

Dear Ms. Houghton:

Reference is made to your application dated June 2, 1992 for a non-standard Wildcat Wolfcamp oil well location for your existing Crystal, 9105 JV-P Well No. 1 which was drilled in February of this year and tested the Morrow formation at a previously approved non-standard gas well location (Division Order No. R-9637, dated February 12, 1992) 1550 feet from the South line and 1650 feet from the East line (Unit O) of Section 4, Township 24 South, Range 26 East, NMPM, Eddy County, New Mexico.

It is my understanding that the Morrow zone will be properly plugged back and said well will be recompleted to the Wolfcamp formation, which pursuant to Division General Rule 104.B. is unorthodox. Further, the SW/4 SE/4 (Unit O) of said Section 4 shall be dedicated to the well forming a standard 40-acre oil spacing and proration unit.

By the authority granted me under the provisions of General Rule 104F(I), the above-described unorthodox oil well location is hereby approved.

Sincerely,

WILLIAM J. LEMAX  
Director

WJL/MES/jc
