Re: Application for Administrative  
Approval of an Unorthodox Location  
in the Seven Rivers Formation for  
the C. H. Kyte Well No. 1.

Dear Mr. LeMay:

Union Oil Company of California respectfully requests administrative approval of an unorthodox well location for its C. H. Kyte Well No. 1. The proposed location will be in the Seven Rivers formation, House Y-SR Gas Pool, at a point of 330 feet from the west line and 1980 feet from the south line of Sec. 5, Township 20 South, Range 39 East, Lea County, New Mexico. The C. H. Kyte Well No. 1 was originally drilled as an unsuccessful Clear Fork test March 1950; it was plugged back to a depth of 4410' and completed in the House San Andres Pool in May 1950. Union plans to abandon the San Andres formation and recomplete this well as a gas well in the House Y-SR Pool on 160-acre spacing. The well was originally drilled as an oil well at a standard location.

Attached is a plat showing Union's lease and ownership of all leases offsetting the proration unit.

Notice of this application has been provided by certified mail to all operators of proration units offsetting the lease for which the unorthodox location is being sought.

If you have any questions, please call me at (915) 682-9731.

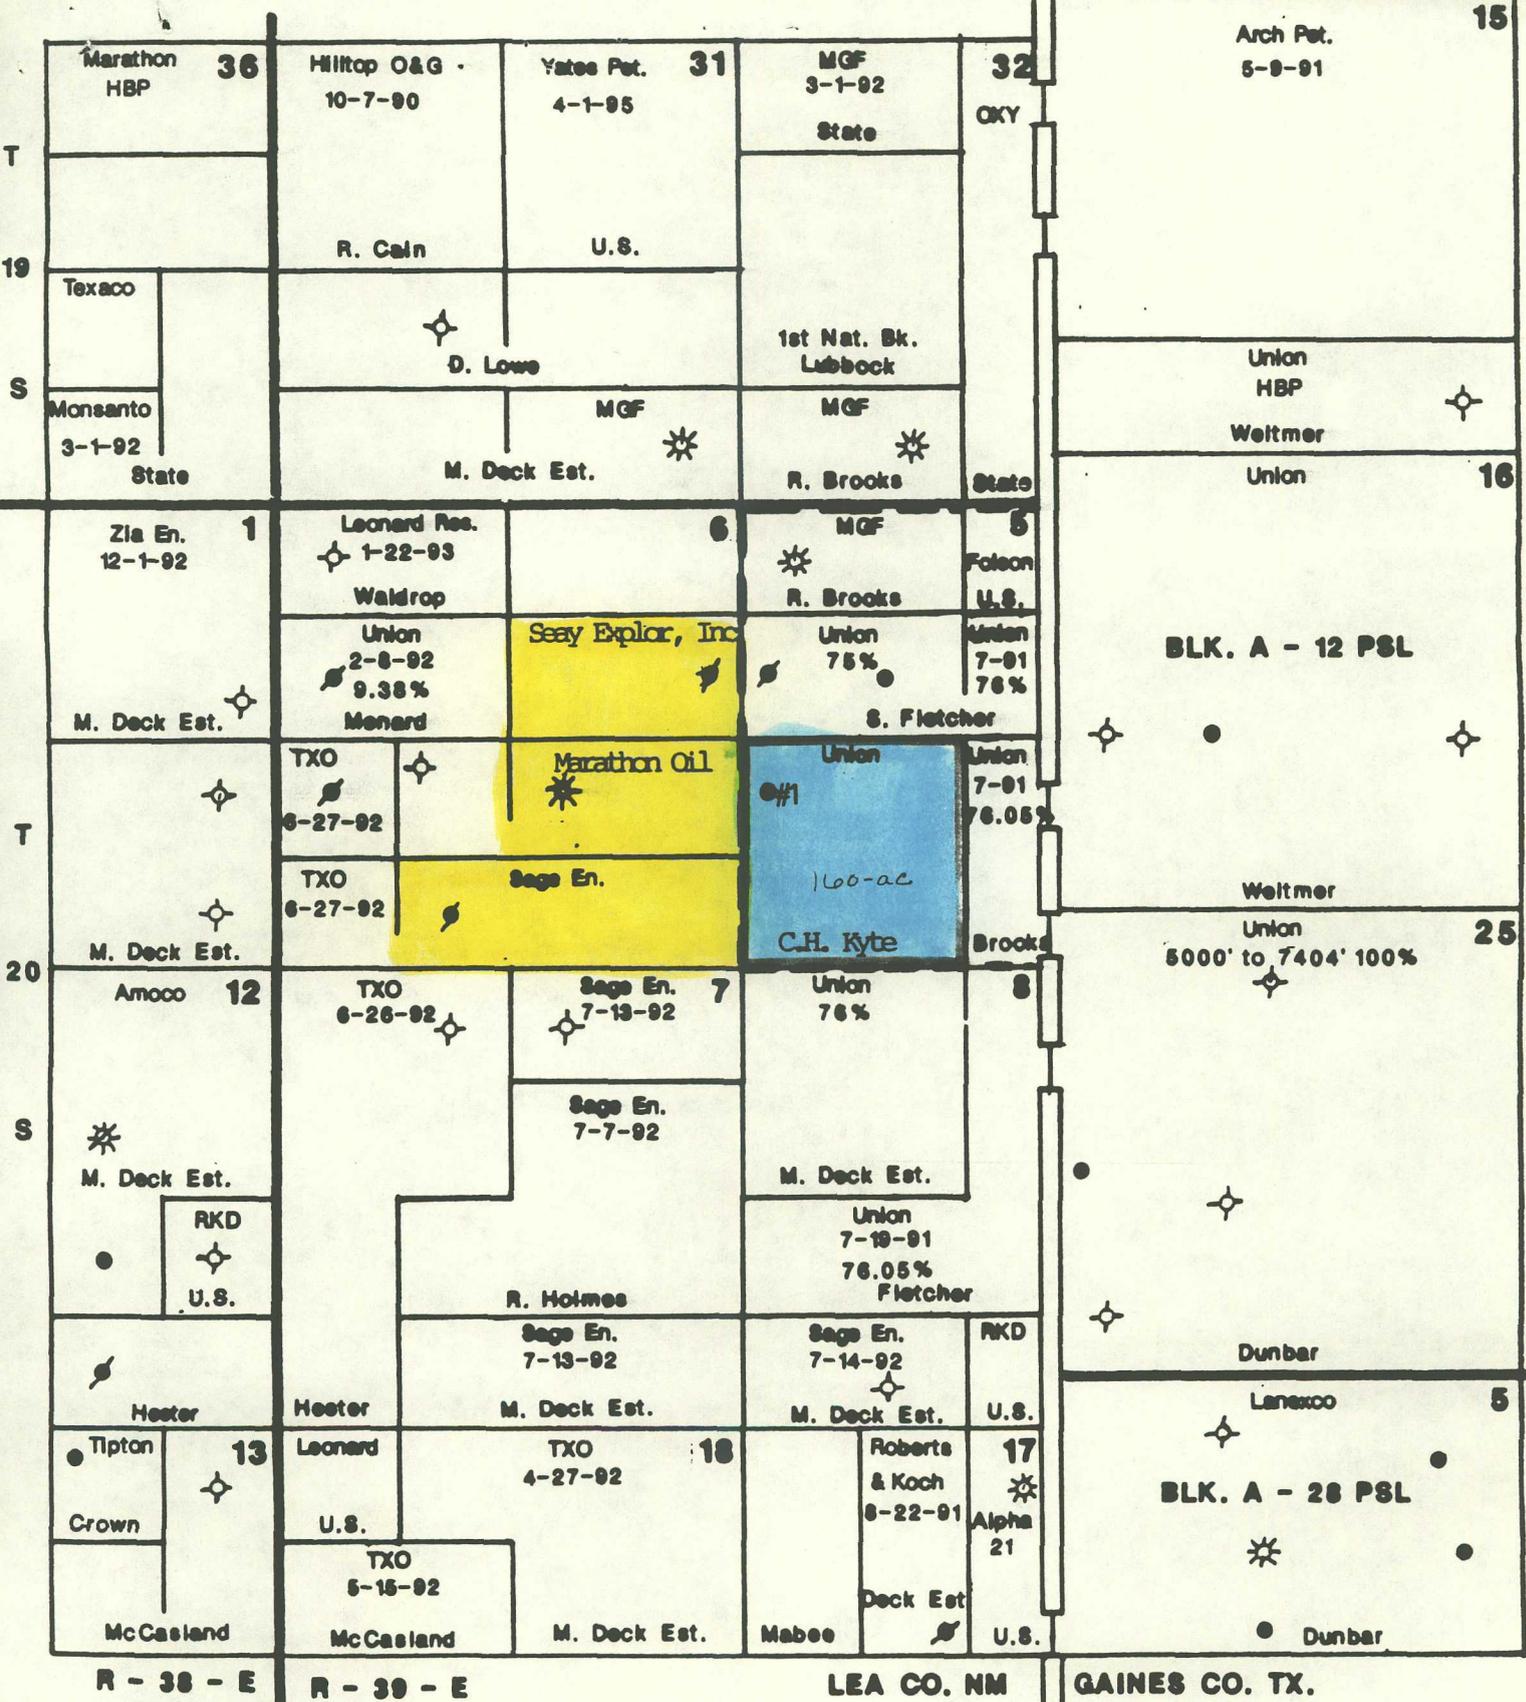

Very truly yours,

Union Oil Company of California  
dba UNOCAL
