Re: Application for Non-Standard Location
Evergreen Operating Corporation
Rosa Unit #315
2548' FSL 2066' FWL Sec. 30-T31N-R4W
Basin Fruitland Coal Gas Pool
Rio Arriba County, New Mexico

Gentlemen:

We, on behalf of Evergreen Operating Corporation, hereby make application for approval of the location of the Rosa Unit #315 well to be located 2548' FSL 2066' FEL of Section 30 Township 31 North, Range 4 West, Basin Fruitland Coal Gas Pool, Rio Arriba County, New Mexico.

The reason for the non-standard location is because of topography and at the request of the U.S. Forest Service to avoid further damage to the environment and wildlife habitat.

We believe that directional drilling should not be required because a beam pump and rods may be required to lift water from the wellbore to sustain production.

The distances between wells is within the footage parameters required by Order R-8759.

The attached exhibits show the situation at the location and surrounding area.

It is our belief that the information contained in this application is true and correct according to the information available to us.

All offset operators and lease owners are being notified by certified mail at this mailing. The Return Receipt Cards will be provided when they are returned.

If further information is needed, please contact us.

Yours very truly,

A. R. Kendrick

Enclosures

xc: Offset owners and interested parties as listed on Exhibit G

Exhibits for Application for Non-Standard Location

Evergreen Operating Corporation Rosa Unit #315

**2548' FSL 2066' FWL, K-30-T31N-R4W
Basin Fruitland Coal Gas Pool
Rio Arriba County, New Mexico**

The following exhibits are enclosed :

- EXHIBIT A Form C-102, Well Location and Acreage Dedication Plat, showing the location of the well with respect to the section lines, the dedicated acreage, and the proration unit.
- EXHIBIT B Copy of Topographic Map showing the location.
- EXHIBIT C Ownership and Offset Well Location Plat showing the location and ownership and offset wells.
- EXHIBIT D Location Windows Plat showing the "windows" for standard locations as provided by Order R-8768.
- EXHIBIT E Copy of Application for Permit to Drill.
- EXHIBIT F On-Site Inspection report showing the findings of the On-Site Inspection.
- EXHIBIT G List of names and addresses of offset owners and other interested parties.

ON-SITE FIELD INSPECTION

**Evergreen Operating Corporation
Rosa Unit #315**

2548' FSL 2066' FWL Sec. 30-T31N-R4W
Basin Fruitland Coal Gas Pool
Rio Arriba County, New Mexico

During our On-Site Inspection, we found the following to exist:

- The location is within the Carson National Forest.
- The terrain in the area is severe.
- The location was staked according to the instructions we received earlier from the US Forest Service with respect to avoiding unnecessary road construction, excessive cuts and fills, excessive timber removal, and other ecological damage.
- The location does not crowd any drill tract inside or outside of Section 14 according to the footage requirements in Order R-8768.
- The location is satisfactory to the Forest Service.
