Mr. Richard Ezeanyim
Chief Engineer
Engineering Bureau
Oil Conservation Division
Santa Fe, New Mexico

Facsimile Letter to: 505-476-3462

Re: Case 14049
Non-standard location (nsl)
San Isidro 16-8
Rio Puerco Mancos Field
Sandoval County, New Mexico

Dear Mr. Ezeanyim,

Since Pride Energy Company has withdrawn its objection to the non-standard location (nsl) of High Plains' San Isidro 16-8 Well, this letter is to request administrative approval of that nsl and notification of District III, the Aztec District, of Santa Fe's approval of the nsl. Then, the Aztec District has indicated that the C104 that High Plains submitted four months (4 mos.) ago, on August 10, 2007, will be approved, and production can finally begin.

Copies of the Application for Approval, a list of affected persons, copies of the certified mailings to those persons, a copy of the return receipts received by High Plains and a copy of the unclaimed letter to Talus Properties, a minority interest owner in an adjoining lease, accompany this letter. If either you, or David Brooks have any questions, or need anything else, please call me at 303-494-4529.

Since Case 14049 has been dismissed, we're anxious to obtain approval as soon as possible.

Sincerely,

John B. Somers II
Petroleum Engineer and President
High Plains Petroleum

Re: Application for Approval
Non-standard location
San Isidro 16-8
2207' FNL & 1000' FEL Section 16,
Township 20 North, Range 3 West, NMPM,
Sandoval County, New Mexico

This letter is to request approval of the non-standard location (nsl) of San Isidro 16-8, a well in the Rio Puerco Mancos Pool in Sandoval County, New Mexico. A copy of the Well Location and Acreage Dedication Plat, Form C102, is attached to this application.

The location of the well was moved from a standard location to the location at which the well was drilled, 2207' from the north line and 1000' from the east line of Section 16, Township 20 North, Range 3 West of the New Mexico Principal Meridian (NMPM), after an archaeological site was found at the original, standard location. The location was moved southwest toward San Isidro 16-10, in accordance with instructions from the BLM.

Both San Isidro 16-8 and San Isidro 16-10 are on the same lease, Lease No. NMNM105185. However, ownership of the two wells is slightly different, because spacing in the Rio Puerco Mancos Pool is 320 acres. As a result, Lease No. NMNM105185 was communitized with Federal Oil and Gas Lease No. NMNM115432 to form a drilling and proration unit for San Isidro 16-8, as shown on attached Form C102. All of the owners of those two leases approved that communitization.

Moving of the location of San Isidro 16-8 made the location closer than 660 feet from the boundary of the drilling and proration unit. However, the location is further than 660 feet from the lease line and the drilling and proration unit for San Isidro 15-4, which is operated by Pride Energy Co.. San Isidro 16-8 is 2520 feet from San Isidro 15-4. Therefore, San Isidro 16-8 is less likely to affect Pride's well than it would have at the original, standard location.

Moving of the location of San Isidro 16-8 also made San Isidro 16-8 closer than 1800 feet from another well in the Rio Puerco Mancos Pool. However, the location of High Plains' San Isidro 16-8 is closer than 1800 feet to High Plains' San Isidro 16-10 Well and further than 1800 feet from Pride Energy's San Isidro 15-4 Well.

Application to OCD
Nonstandard Location
San Isidro 16-8
October 31, 2007
Page Two

A map showing the owners of leases that are contiguous to the drilling and proration unit for San Isidro 16-8 and the operator of the well in the drilling and proration unit that is contiguous to the drilling and proration unit for San Isidro 16-8 is also attached to this application. **Those owners and that operator are being furnished a copy of this application by certified mail return receipt requested, and by their copy of this letter are hereby notified that they have 20 days from receipt of this application by the Oil Conservation Division, which will be today, to object in writing to the nonstandard location of San Isidro 16-8.** A list of those owners and that operator, Pride Energy, is also attached, as required.

Administrative approval of the nsl would be appreciated so that production can begin.

Sincerely,

John B. Somers II
President
High Plains Petroleum

Personally delivered to and accepted by Florence Davidson at the Oil Conservation Division on October 31, 2007.
