Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

RECEIVED

JAN 14 2008

HOBBS OCD

If a Watercourse was Impacted, Describe Fully.*
No Impact to watercourse.

Describe Cause of Problem and Remedial Action Taken.*
A valve leaked below ground. Water pooled on the surface in an area about 60 feet long by 20 feet wide. A vacuum truck was immediately dispatched to recover the pooled water. A work order was completed to remove several inches of contaminated soil. The spill occurred adjacent to a tank battery.

Describe Area Affected and Cleanup Action Taken.*
The Vacuum truck recovered 40 bbls of produced water. Surface soil will be removed with a backhoe. *Must be sampled for CI contamination levels. Ca*

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
