Doug:

The Oil Conservation Division's (OCD) records indicate that the following discharge plans will expire this year:

GW-301 Manzanares Compressor Station (San Juan County)	Expiration Date: 6/8/2008
GW-302 Potter Canyon Compressor Station (San Juan County)	Expiration Date: 7/14/2008
GW-303 Navajo City Compressor Station (Rio Arriba County)	Expiration Date: 7/14/2008
GW-298 Martinez Canyon Compressor Station (Rio Arriba County)	Expiration Date: 7/14/2008
GW-304 Turley Compressor Station - Trunk O (San Juan County)	Expiration Date: 7/14/2008
GW-154 Peak Angel #2 Compressor Station (San Juan County)	Expiration Date: 12/13/2008
GW-153 Peak Angel #1 Compressor Station (San Juan County)	Expiration Date: 12/31/2008

New Mexico Water Quality Control Commission regulations (WQCC) Section 3106.F (20.6.2.3106.F NMAC) specifies that if a discharger submits a discharge plan renewal application at least 120 days before the discharge plan expires and is in compliance with the approved plan, then the existing discharge plan will not expire until the application for renewal has been approved or disapproved. Please submit a permit renewal application, identifying any changes and updates, with a filing fee (20.6.2.3114 NMAC) of \$100.00 at least 120 days before the discharge plan expires. Please make all checks payable to the **Water Quality Management Fund** and addressed to the OCD Santa Fe Office. There is also a discharge plan permit fee, based on the type of facility, which OCD will assess after processing your application. An application form and guidance document is attached in order to assist in expediting this process.

In accordance with the public notice requirements (Subsection A of 20.6.2.3108 NMAC) of the newly revised (July 2006) WQCC regulations, "...to be deemed administratively complete, an application shall provide all of the information required by Paragraphs (1) through (5) of Subsection F of 20.6.2.3108 NMAC and shall indicate, for department approval, the proposed locations and newspaper for providing notice required by Paragraphs (1) through (4) of Subsection B or Paragraph (2) of Subsection C of 20.6.2.3108 NMAC." You are required to provide the information specified above in your permit renewal application submittal. Attached are a flow chart and the regulatory language pertaining to the new WQCC public notice requirements for your convenience. After the application is deemed administratively complete, the revised public notice requirements of 20.6.2.3108 NMAC must be satisfactory demonstrated to OCD. OCD will provide public notice pursuant to the revised WQCC notice requirements of 20.6.2.3108 NMAC to determine if there is any public interest.
