Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

Rec'd 3/3/08 e-mail.

If a Watercourse was Impacted, Describe Fully *

Describe Cause of Problem and Remedial Action Taken.*
A flow line ruptured releasing oil into the roadside bar ditch and flowed across Billy Walker road. A vacuum truck was used to pick up the free oil. The roadway was washed down by the Hobbs Fire Dept.

Describe Area Affected and Cleanup Action Taken.*
2 BBLS of oil was recovered. Soil remediation activities commenced on 2/1/08. Soil was excavated, disposed of at Sundance Services' disposal facility, the site sampled, and then backfilled upon approval from NMOCD. See attached lab analysis and NMOCD approval to backfill and close

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: Chesapeake-Moby #2-Closure request

Chris,

Please find attached the lab results after excavation of impacted soils for the above referenced well. May we backfill this site?

Please respond back to reply all so Ken will get your response as I will be out of touch tomorrow (Friday).

Thanks, Cliff
