Re: Application for Unorthodox Location
Rosa Unit #132 (Dakota): Sec 22, T31N, R5W

Dear Mr. Stogner:

Williams Production Company is requesting administrative approval to recomplete this well which is located in an unorthodox location.

The proposed well: *Rosa Unit #132*, located 640' FSL, 950' FWL (Unit M), Section 22, T31N, R5W, Rio Arriba Co., New Mexico. The proposal is to recomplete this plugged Dakota wellbore to the Mesaverde formation (see attached wellbore diagram).

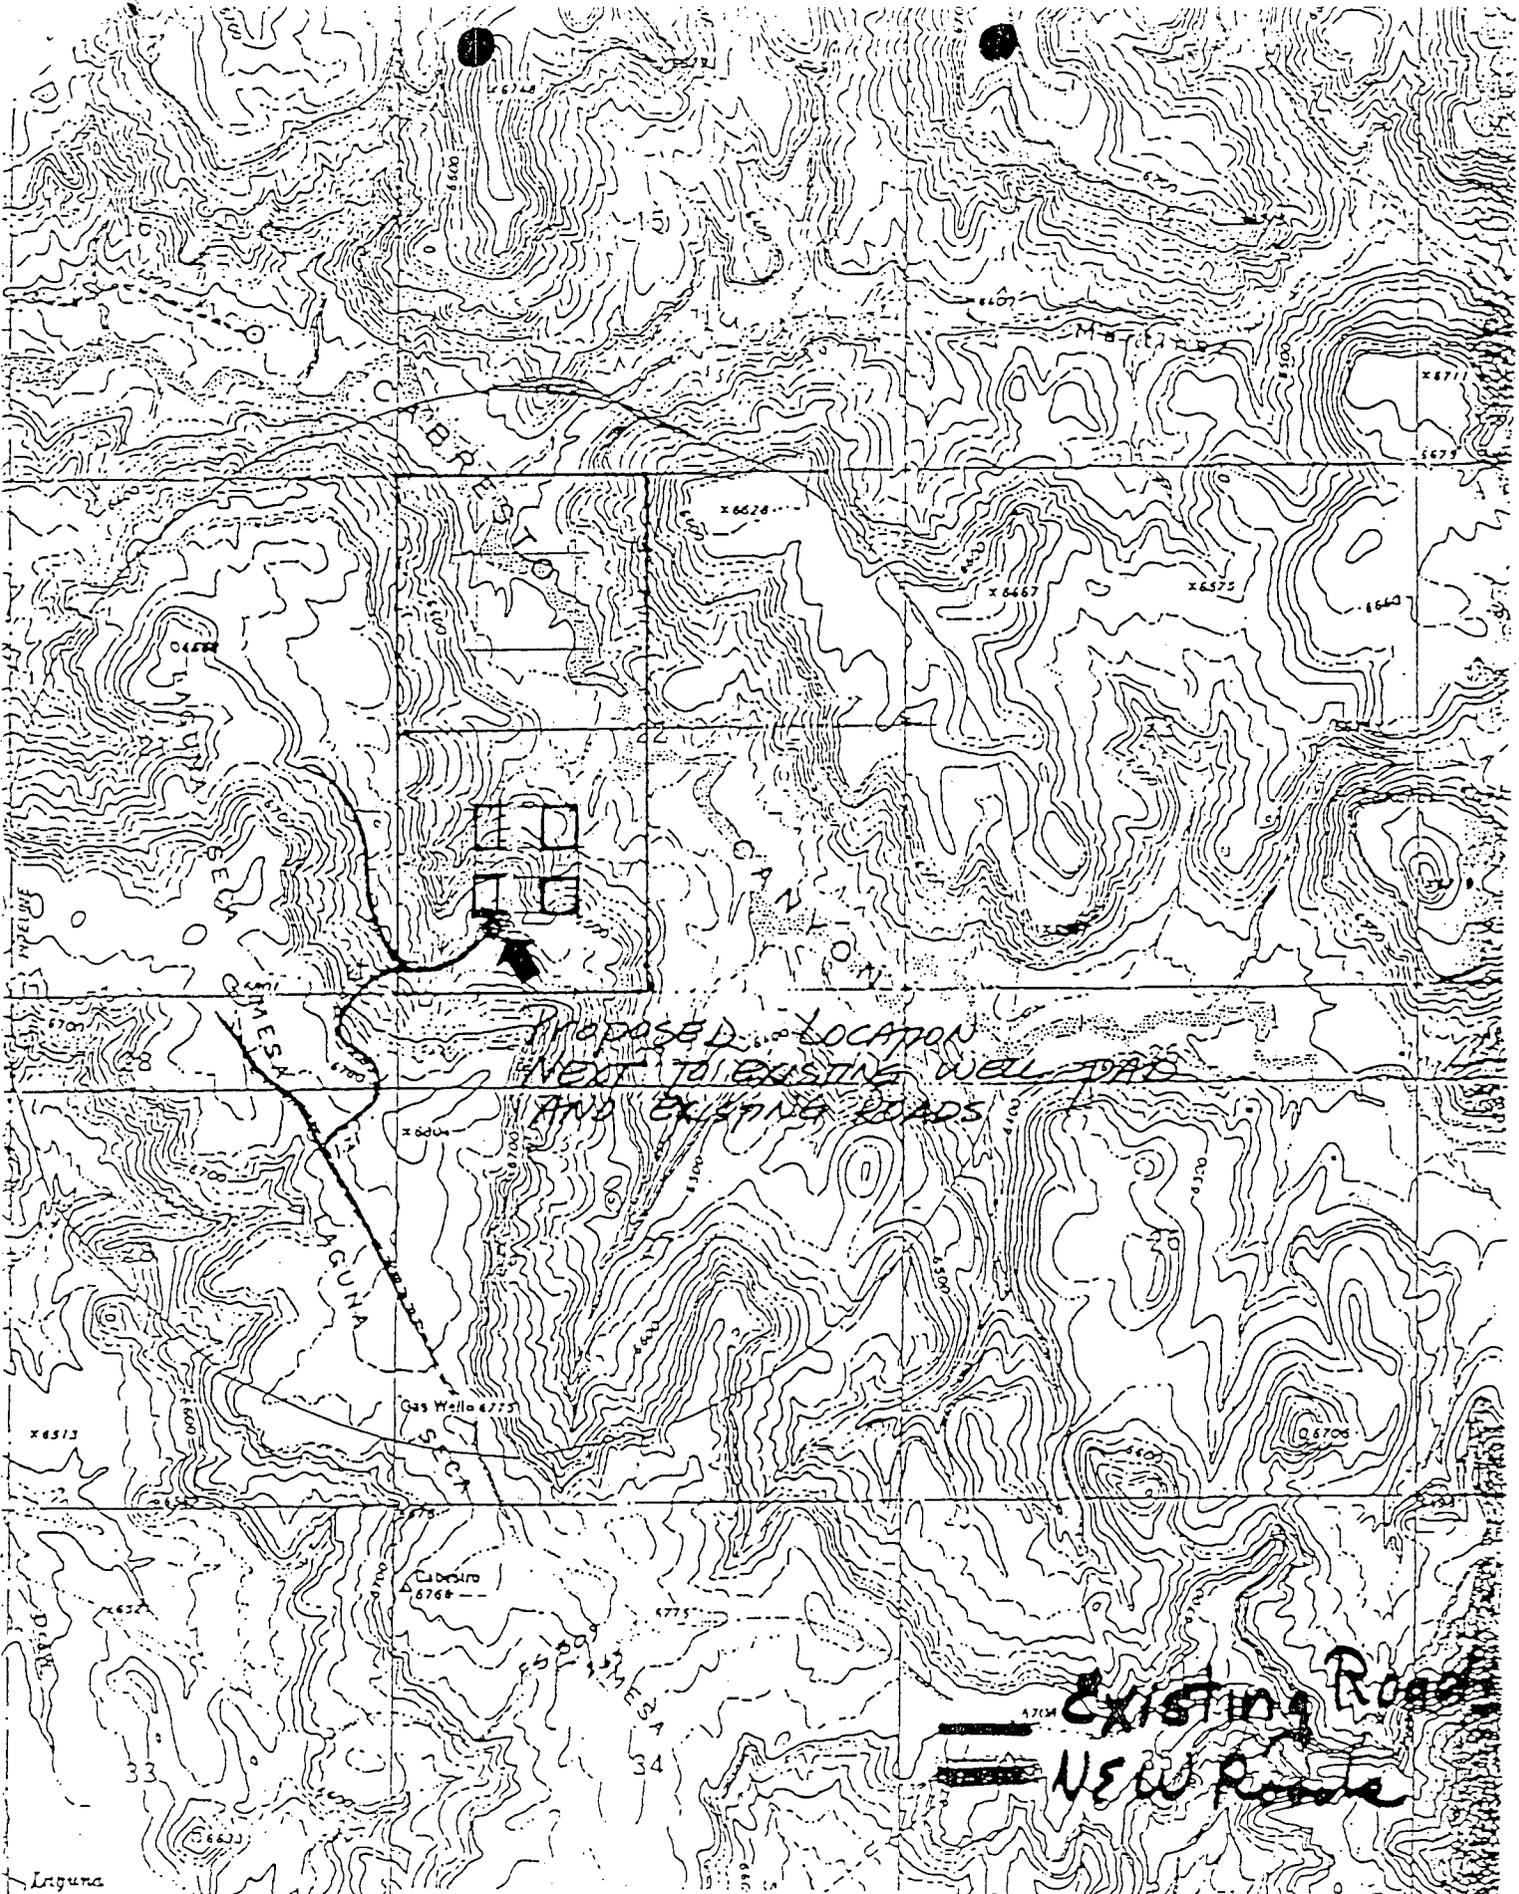

This well was drilled in an approved unorthodox location to the Dakota formation by Amoco Production Company in 1993. After testing, Amoco plugged the Dakota formation. Williams Production Company as Rosa Unit operator, is now the operator of this wellbore. Williams Production Company propose to utilize the existing wellbore to reduce surface impact and minimize impact on heritage resources.

The offset acreage lies within the boundaries of the Rosa Unit. As Unit operator, WPX does not oppose the unorthodox locations.

If you have any questions, please call me at (918) 561-6250. Thank you for your help.

Sincerely,

Steve Katirgis
Sr. Engineer

Attention: J.W. Hawkins

Administrative Order NSL-3293

Dear Mr. Hawkins:

Reference is made to your application dated July 9, 1993 for a non-standard gas well location for your Rosa Unit Well No. 132 to be drilled 640 feet from the South line and 950 feet from the West line (Unit M) of Section 22, Township 31 North, Range 5 West, NMPM, Basin Dakota Pool, Rio Arriba County, New Mexico. The W/2 of said Section 22 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit.

By the authority granted me under the provisions of Rule 2(c) of the Special Rules and Regulations for the Basin Dakota Pool as promulgated by Division Order No. R-8170, as amended, the above-described unorthodox gas well location is hereby approved.

Sincerely,

A handwritten signature in black ink, appearing to read "William J. LeMay".
