Dear Gentlemen:

Devon Energy Corporation (Nevada) requests approval for Non-Standard Location for the well listed below. This NSL was required because the original location was too close to a pipeline and topography only allowed the location to be moved closer to the east line of the section (see map).

53	I	7-18S-27E	1780' FSL & 230' FEL

Enclosed is a map of the West Red Lake Unit showing the Unit's boundaries and a copy of form C-102 for the proposed well.

Operators having wells in the offsetting 40 acre tracts have been notified by certified mail. A copy of our letter of notification to the following operator is enclosed.

Attached is a plat of the West Red Lake Unit showing the Unit's boundaries and all the wells within; and, Forms 3160-3 and C - 102. The West Red Lake unit is a federal unit and the proposed well is to be part of this active waterflood project. The Unit ID number for the West Red Lake Unit is 14-08-0001-8970.
