ADMINISTRATIVE APPLICATION FOR AMENDMENT OF OCD ORDER NSL-3397 BLINEBRY OIL POOL PRORATION UNIT W. T. MCCOMACK NO. 117 BLINEBRY OIL AND GAS POOL SECTION 32, T21S, R37E LEA COUNTY, NEW MEXICO

OCT 1 8 1994
OIL CONSERVATION DIV.
SANTA FE

State of New Mexico
Energy, Minerals & Natural Resources Dept.
Oil Conservation Division
P.O. Box 2088
Santa Fe, New Mexico 87504

Attention: Mr. William J. LeMay - Director

Gentlemen:

Chevron U.S.A. Inc. respectfully requests administrative approval for the amendment of Administrative Order NSL-3397, dated May 26, 1994(copy attached). The W. T. McComack well No. 11 was approved as a non-standard gas well in a 160 acre standard gas unit. The well recompletion was accomplished and the well should be classified as an oil well. Well # 11 is at a standard oil well location.

Well No. 11 is located at 554' FNL and 554' FEL, Unit A, in Section 32, T21S, R37E, NMPM, Lea County, New Mexico. The C-116 (copy attached) shows a GOR of 7,656, well below the 50,000 required for a gas well. Per the OCD guidelines, Chevron is requesting a change of status from a gas well to an oil well. With this change, the oil unit proration size is to be reduced to a standard 40 acre size, consisting of the NE/4 NE/4 of Section 32, T21S, R37E, Unit A.

Attached is a plat outlining the amended proration unit along with the location of well No. 11, and a map showing the offset properties and wells.

Stuff - Chev./

Chevron U.S.A. Inc. requests that administrative approval of this amendment request be granted. If additional information is required, please contact me at (915) 687-7152.

Sincerely,

Lloyd V. Trautman

Sr. Petroleum Engineer

October 13, 1994 Midland, Texas Chevron U.S.A. Production Company P.O. Box 1150 Midland, TX 79702

ADMINISTRATIVE APPLICATION FOR AMENDMENT OF OCD ORDER NSL-3397 BLINEBRY OIL POOL PRORATION UNIT W. T. MCCOMACK NO. 11 BLINEBRY OIL AND GAS POOL SECTION 32, T21S, R37E LEA COUNTY, NEW MEXICO

(Offset Operator Address)

Gentlemen:

Attached is a copy of Chevron's administrative application for the amendment of OCD Order NSL-3397 to change the status of the W. T. McComack well No. 11 from a gas well to an oil well. We have also requested the proration unit size be altered to a standard 40 acre oil proration unit.

Chevron recompled well No. 11 from the Silurian into the Blinebry and the well should be classified as an oil well instead of a gas well.

If additional information is required, please contact me at (915) 687-7152.

Sincerely,

Lloyd V. Trautman Sr. Petroleum Engineer

Attention: Lloyd V. Trautman

Administrative Order NSL-3397

Dear Mr. Trautman:

Reference is made to your application dated April 14, 1994, for a non-standard Blinebry gas well location for your existing W.T. McComack Well No. 11 (API No. 30-025-06940) which was drilled in 1947 and completed in the McComack-Silurian Pool at a standard oil well location 554 feet from the North and East lines (Unit A) of Section 32, Township 21 South, Range 37 East, NMPM, Lea County, New Mexico.

It is my understanding that the Silurian zone will be properly plugged back and said well will be recompleted to the Blinebry Gas Pool, which pursuant to the Special Rules and Regulations for the Blinebry Gas Pool as promulgated by Division Order No. R-8170, as amended, is unorthodox. Further, the NE/4 of said Section 32 shall be dedicated to the well forming a standard 160-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 2(c) of said Division Order No. R-8170, as amended, the above-described unorthodox gas well location is hereby approved.

Sincerely,

William J. LeMa

Director
