Basin Fruitland Coal

Dear Mr. LeMay,

This is a request on behalf of J. K. Edwards and Associates for administrative approval for a non-standard location in the Basin Fruitland Coal pool for the referenced well.

J. K. Edwards plans to re enter this plugged and abandoned Gallup well and complete it through the existing casing in the Basin Fruitland Coal pool. This location was a legal location for a Gallup test but does not meet the minimum set back requirements for Fruitland Coal wells.

Utilizing this existing location will reduce the surface disturbance since the pad is already built and the pipeline facilities are close by. The surface is Navajo Tribal Trust Land.

Attached is a plat indicating the offset Fruitland Coal operators and existing Fruitland Coal wells (Exhibit 1) and a list of offset operators and their addresses (Exhibit 2).

The offset Fruitland Coal operators are being notified of this application by certified return receipt mail. Copies of these letters are enclosed as Exhibit 3.

Thank you for your consideration and approval of this application. If you have any questions please do not hesitate to call upon me.

Sincerely,

Paul C. Thompson
