Re: Non-Standard Location  
Northwest Pipeline Corporation  
Rosa Unit #151  
1150' FNL, 2205' FWL  
Section 33, T32N R6W  
San Juan County, NM  
Blanco Mesa Verde

Dear Mr. LeMay,

This is a request on behalf of Northwest Pipeline Corporation for administrative approval for a non-standard gas location in the Blanco Mesa Verde pool for the referenced well. The well has been located to avoid archaeological sites.

As you can see from the attached topographical map, the north half of section 33 is a very steep hillside. The rest of the quarter section is in an area of extensive archaeological activity. Cultural Resources Management Consultants, Inc. surveyed the area and found numerous sites in this quarter section. The attached map, prepared by CRMC outlines the site boundaries. The proposed location has been located adjacent to an existing road and overhead power line in an area that is free of archaeological sites.

The proposed spacing unit is the east half of Section 33, T32N, R6W, which is a standard 320 acre subdivision. As the Unit Operator of the Rosa Unit, Northwest Pipeline is the only offset operator. Attached is a plat indicating the well location and proposed spacing unit.

*NSL-MERD*

Thank you for your consideration and approval of this application. If you have any questions please do not hesitate to call upon me.

Sincerely,

*Paul C. Thompson*

Paul C. Thompson, P.E.
