RE: Application for Administrative Approval of Unorthodox  
Location on **Millman "3" State Com Lease, Well #1**  
1980' FNL & 2280' FWL, Section 3, T19S, R28E  
Eddy County, New Mexico

Dear Sir:

Maralo, Inc., hereby requests administrative approval for an exception to Rule 104(C)(II). The necessity for such unorthodox location is based upon the enclosed letter from the City of Carlsbad, New Mexico, to Maralo, Inc. wherein they inform us that our original proposed location (1980' FN&WL) will interfere with the city water transit lines. Accordingly, Maralo has elected to move the proposed location 300 feet to the East to avoid any interference with said water lines.

Waivers of objection from all offset operators, with Form C-102, Location Verification Map and Vicinity Map are attached for your information. If you have any question regarding this request, please contact John Thoma, Geologist or Mark Wheeler, District Landman at (915) 684-7441.

Thank you for your prompt assistance.

Sincerely,

*Dorothea Logan*

Public Works  
**JAMES M. HARRISON**

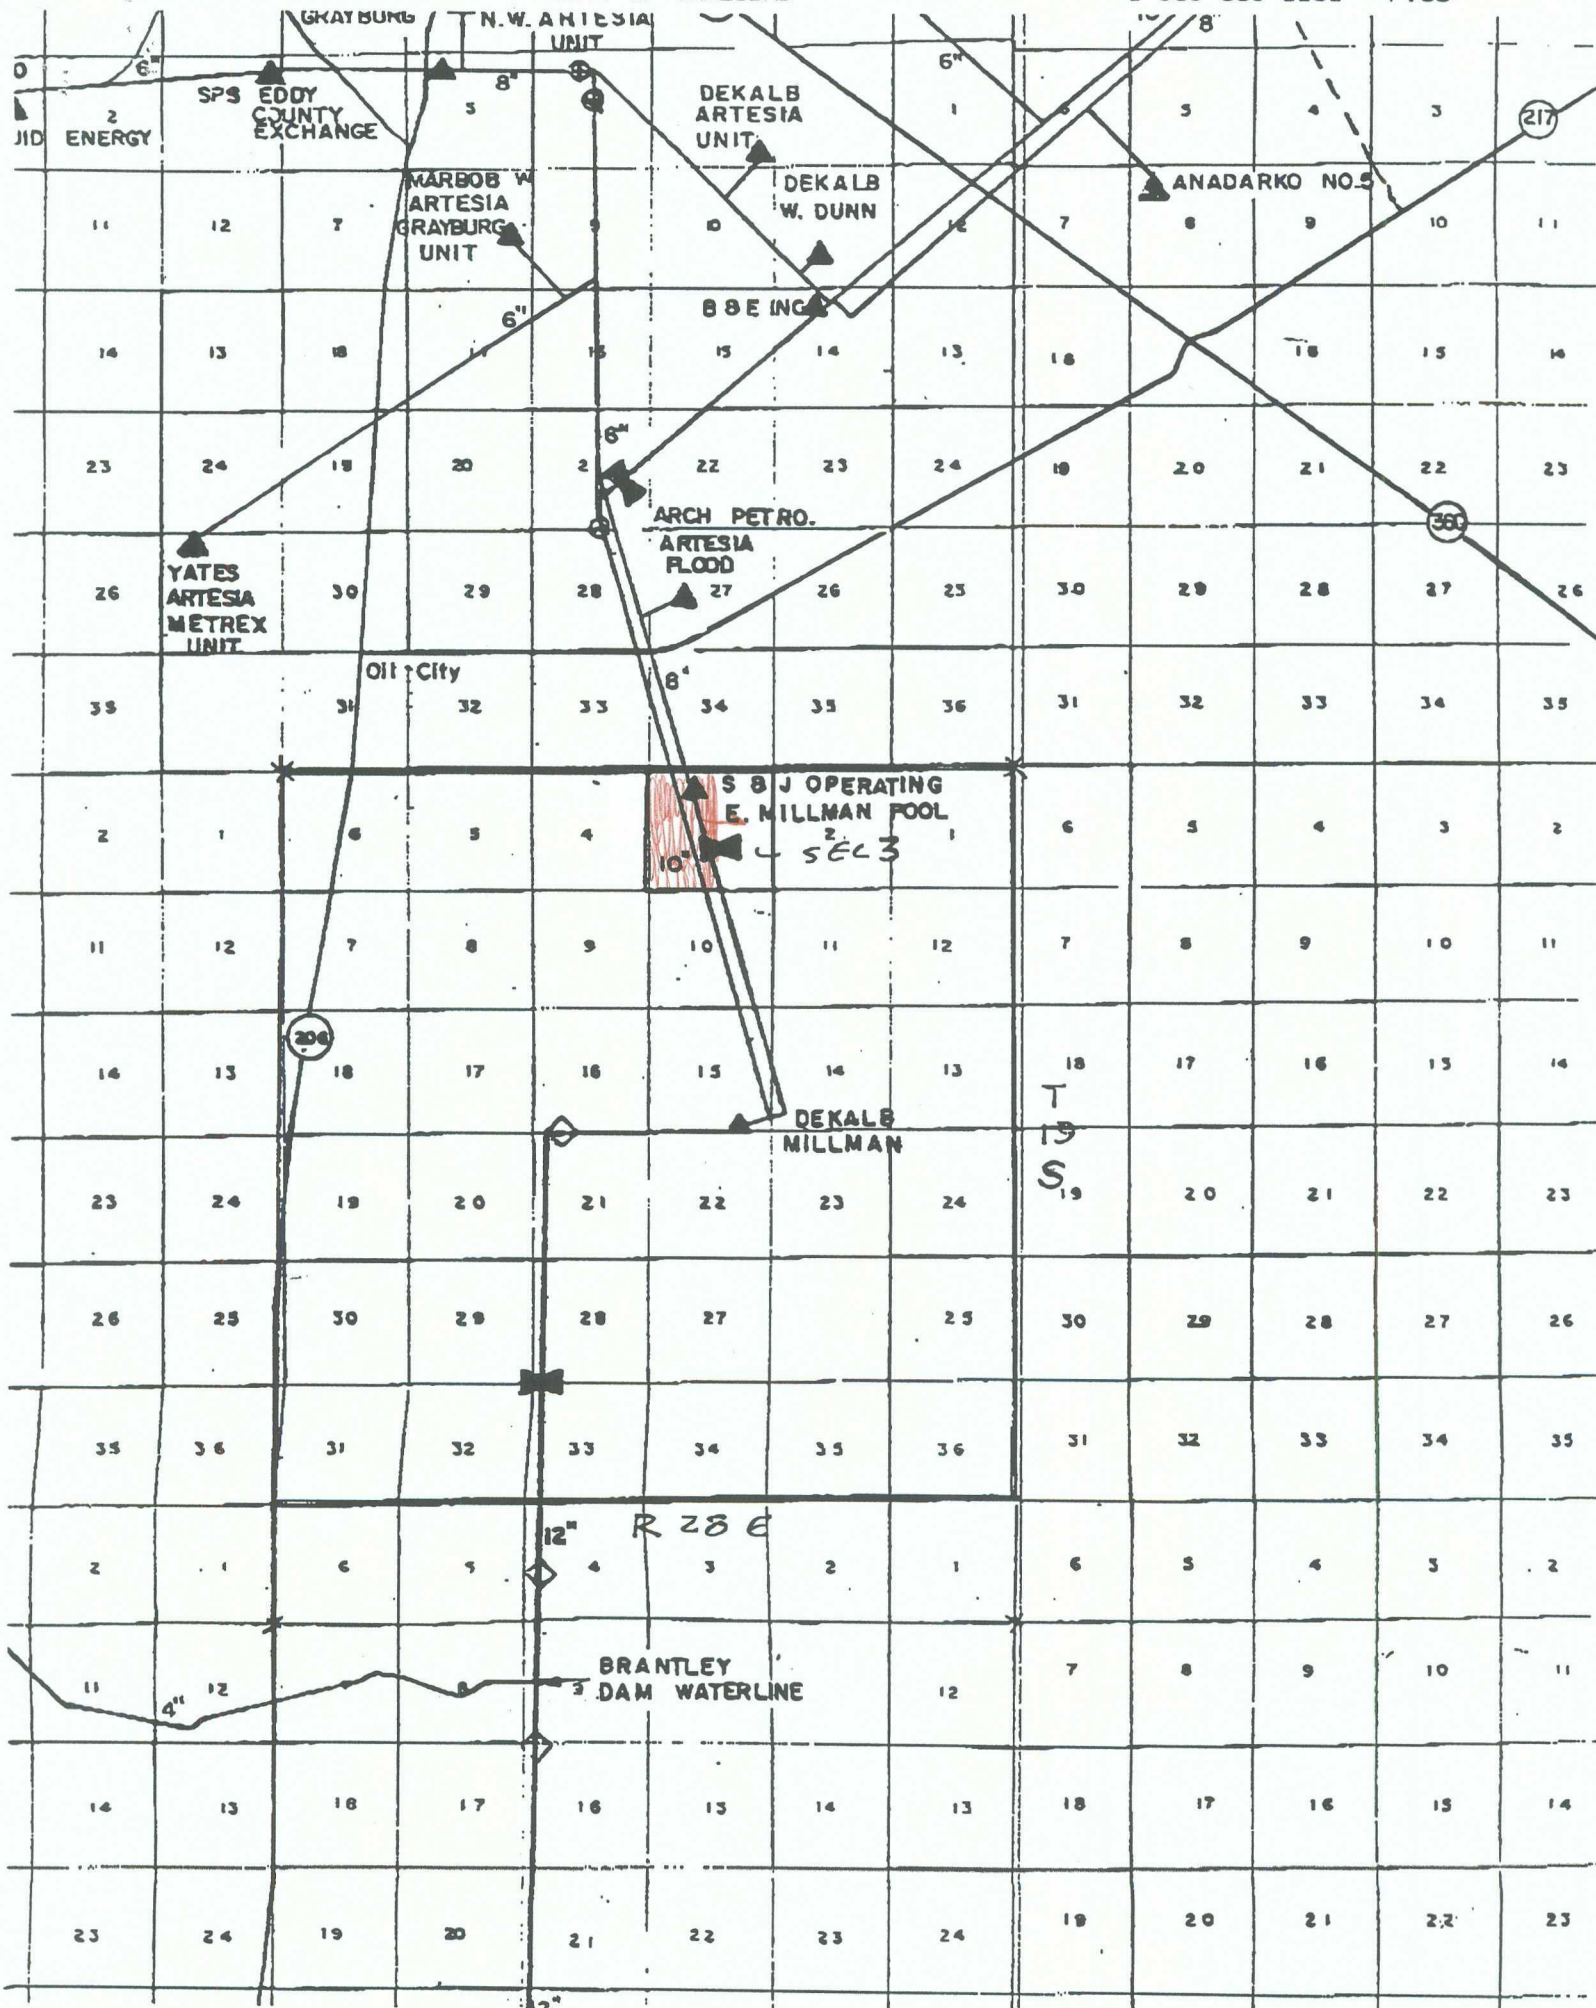

Mr. John Thoma,  
Geologist  
Maralo, Inc.  
Box 832  
Midland, TX 79702

Mr. Thoma:

As per our phone conversation on April 24, 1995, the City of Carlsbad is concerned about the placement of your Millman ST Com 3 #1 (Sec. 3, T19, R28). This proposed location lies approximately 22 yards from two of the City's large, shallow transite lines. The City also has a cleared right-of-way over these, extending 25 feet on either side of the two lines. The right of way is not compacted, and therefore not made to travel upon with heavy equipment without damaging the lines. The City requests that Maralo, Inc. consider moving this proposed well pad at least 100 yards from the City right-of-way. The City also requests that Maralo, Inc. not use the City's right-of-way as access to this pad, but instead cut a road from the Illinois Camp Rd. (about 1/2 mile to the South) north to the pad. The City believes that this could avert possible future damage to our water lines. I have included a section map with our water lines marked. It appears that moving the well to the south would not be possible to keep it away from the lines. The City appreciates your help in this matter. If you have any questions please feel free to contact me at (505) 887-1191 ext. 359. Our head Double Eagle Well Field Operator, Jim Parker [1(505) 677-2107], is based in Loco Hills and would be available to meet someone on site to answer questions as well.

Sincerely,

Gentlemen:

In accordance with State of New Mexico, Oil Conservation Division Rule 104 - Well Spacing: Acreage Requirements (F). Unorthodox Locations, Item #4., Maralo Inc. informs you of the captioned location change. Enclosed is a copy of the April 24, 1995 letter from the City of Carlsbad, New Mexico to Maralo wherein they inform us that our original proposed location (1980' FN&WL) will interfere with the city water transit lines. Accordingly, Maralo has elected to move the proposed location 300 feet to the East to avoid any interference with said water lines.

If you have no objections to this location change, please review and sign the waiver below and fax it immediately to Dorothea Logan, Maralo's Regulatory Analyst at (915) 684-9836. Also, please send this letter with your original signature by return mail to us in the enclosed envelope.

Should you have any questions concerning this matter, please feel free to contact us. Thank you for your prompt assistance.

Yours very truly,

A handwritten signature in dark ink, appearing to read "Mark Wheeler", written over a horizontal line.

Mark Wheeler, CPL  
District Landman

WAIVER

The undersigned has no objection to Maralo Inc.'s request for an unorthodox location as stated above and shown of the enclosed Form C-102, Location Verification Map and Vicinity Map.

APPROVED: A handwritten signature in dark ink, appearing to read "John A. Yates", written over a horizontal line.
