Administrative Application For

E/2 NE/4 Section 32
E/2 NW/4 & NW/4 NW/4 Section 33
T19S, R37E, Lea County, New Mexico

Gentlemen:

Lion Production, Inc. is in the process of filing NMOCD Forms C-101 and C-102 with the NMOCD District I Office for permission to drill the proposed N. B. Bordages Gas Com. No. 2 well as an infill Eumont (Y-7R-QN) gas well at the unorthodox location of 480' FNL and 850' FEL (Unit A), Section 32, T19S, R37E, Lea County, New Mexico.

Lion Production, Inc. hereby requests administrative approval to locate the N. B. Bordages Gas Com. No. 2 at the aforementioned unorthodox location and approval to simultaneously dedicate the proposed N. B. Bordages Com. No. 2 along with the currently producing N. B. Bordages Com. No. 1 (Unit D, Section 33, T19S, R37E) to the existing 200 acre non-standard Eumont (gas) proration unit consisting of the E/2 NE/4 Section 32 and E/2 ~~NW/4, NW/4 NW/4~~ Section 33, T19S, R37E, Lea County, New Mexico (NMOCD Order Nos. R-1663 & R-1663-A).

The 200 acre N. B. Bordages Gas Com. is located within the subdivided Payton Addition of the Monument Townsite. Several dwellings, barns and corrals are located on the lease in addition to existing oil and gas appurtenances associated with the Amerada Hess operated N. Monument

(GRBG/SA) Unit which prevent the N. B. Bordages Gas Com. No. 2 infill well from being located at a standard location. In conjunction with the above, the surface rights of Block 46 lots 1 - 20 of the Payton Addition (1.51 acres) have been identified to be owned by Texaco Production and Exploration Inc. working interest owners in the N. B. Bordages Gas Com., who are agreeable to allowing a well to be drilled thereon.

Enclosed please find the following information pertaining to our administrative request:

- 1) Land ownership/well location maps identifying the 200 acre N. B. Bordages Gas Com Unit, the proposed location of the N. B. Bordages Gas Com No. 2 well, the existing location of the N. B. Bordages Gas Com. No. 1 well and the offsetting Eumont (gas) completions and proration units.
- 2) Tables describing the offsetting Eumont (gas) proration units and wells.
- 3) Copies of NMOCD Forms C-101 permit to drill, C-102 illustrating the N. B. Bordages Gas Com. proration unit and well locations and C-103 sundry notice requesting unorthodox location and simultaneous dedication.
- 4) Surface ownership maps of the NE/4 NE/4 Section 32, being subdivided as the Payton Addition-Monument Townsite.
- 5) Copy of the letter sent by certified mail to all offsetting parties owning Eumont gas rights.
- 6) Name and address listing of all offsetting owners.
- 7) Copy of Waiver sent to all offsetting parties owning Eumont gas rights.

Should you have any questions or require further information, please contact me. Your consideration in this matter is appreciated.

Very truly yours,

Michael Stewart

Gentlemen:

Lion Production, Inc. respectfully requests your approval of our administrative request before the New Mexico Oil Conservation Division providing for an unorthodox Eumont (Gas) location of 480' FNL and 850' FEL (Unit A), Section 32, T19S, R37E, Lea County, New Mexico for our newly proposed N. B. Bordages Gas Com. No. 2 as well as simultaneous dedication of the existing 200 acre Eumont (Gas) proration unit to the existing N. B. Bordages Gas Com. Gentlemen:

By letter dated June 12, 1995 Lion Production, Inc. requested administrative approval of an unorthodox location and simultaneous dedication as to the above referenced well.

A review of the NMOCD District I well files indicates that Mewbourne Oil Company recently succeeded Cross Timbers Operating Company as operator of the State "F" Gas Com. offsetting the proposed N. B. Bordages Gas Com. No. 2. Enclosed please find a revised offset operators list including Mewbourne Oil Company as well as a revised table describing the offsetting Eumont (gas) proration units and wells. Copies of the information and waiver originally sent to Cross Timbers Operating Company have been forwarded to Mewbourne Oil Company.

In addition to the above, a field inspection of the Amerada Hess Williams #5 (33 I-19S-37E) Eumont gas well showed the well to be shut-in and TA'd with no gas sales connection. This is in conflict with the active status originally indicated on the table describing the offsetting Eumont (gas) proration units forwarded with our June 12, 1995 letter.

Should you require any additional information, please contact me.

Very truly yours,

Re: N. B. Bordages Gas Com. No. 2
Section 32 (A), T19S, R37E
Lea County, New Mexico

Gentlemen:

Attached please find copies of Waivers returned to Lion Production, Inc. whereby offset operators waive any objection to our June 12, 1995 request for an unorthodox location and simultaneous dedication of the referenced well. Chevron, being the only exception, advised Lion that they do not return waivers when they have no objections allowing their protest period to lapse.

Also attached is a list showing the date Waivers were received by the offset operators, the date Waivers were returned by such parties and the expiration date of the required 20 day notification period..

Given the above, Lion requests administrative approval for an unorthodox location of the N. B. Bordages Gas Com. No. 2 and simultaneous dedication of the N. B. Bordages Gas Com. Nos. 1 and 2 wells to the existing 200 acre non-standard gas proration unit in the Eumont (Gas) Pool.

Thank you for your consideration in this matter.

Very truly yours,

Michael Stewart

(2) That by virtue of a communitization agreement, the applicant, Great Western Drilling Company, is the operator of a 200-acre tract in the Eumont Gas Pool consisting of the E/2 NE/4 of Section 32 and the E/2 NW/4 and NW/4 NW/4 of Section 33, all in Township 19 South, Range 37 East, Lea County, New Mexico.

(3) That the applicant proposes that the above-described 200-acre tract be established as a non-standard gas proration unit in the Eumont Gas Pool and that it be dedicated to the Bordages Well No. 1, located 330 feet from the North line and 270 feet from the West line of said Section 33.

(4) That the above-described 200-acre tract can reasonably be presumed to be productive of gas from the Eumont Gas Pool.

IT IS THEREFORE ORDERED:

(1) That a 200-acre non-standard gas proration unit in the Eumont Gas Pool consisting of the E/2 NE/4 of Section 32 and the E/2 NW/4 and NW/4 NW/4 of Section 33, all in Township 19 South, Range 37 East, Lea County, New Mexico, be and the same is hereby established. BEFORE THE OIL CONSERVATION COMMISSION
OF THE STATE OF NEW MEXICO

IN THE MATTER OF THE HEARING
CALLED BY THE OIL CONSERVATION
COMMISSION OF NEW MEXICO FOR
THE PURPOSE OF CONSIDERING:

CASE No. 1998
Order No. R-1663-A

APPLICATION OF GREAT WESTERN
DRILLING COMPANY FOR AN ORDER
FORCE-POOLING THE INTERESTS IN
A 200-ACRE NON-STANDARD GAS
PRORATION UNIT IN THE EUMONT
GAS POOL, LEA COUNTY, NEW
MEXICO.

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause came on for hearing at 9 o'clock a.m. on June 22, 1960, at Santa Fe, New Mexico, before Daniel S. Nutter, Examiner duly appointed by the Oil Conservation Commission of New Mexico, hereinafter referred to as the "Commission," in accordance with Rule 1214 of the Commission Rules and Regulations.

NOW, on this 30th day of June, 1960, the Commission, a quorum being present, having considered the application, the evidence adduced, and the recommendations of the Examiner, Daniel S. Nutter, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) That by Order No. R-1663, a 200-acre non-standard gas proration unit in the Eumont Gas Pool was created, consisting of the E/2 NE/4 of Section 32 and the E/2 NW/4 and NW/4 NW/4 of Section 33, all in Township 19 South, Range 37 East, NMPM, Lea County, New Mexico, which unit is dedicated to the applicant's Bordages Well No. 1, located 330 feet from the North line and 270 feet from the West line of said Section 33.

(3) That the applicant seeks an order force-pooling all the mineral interests in the above-described 200-acre non-standard Eumont Gas Proration Unit.

(4) That it is completely impracticable to form a standard Eumont Gas Unit embracing the above-described 200-acre tract inasmuch as all adjacent acreage is already dedicated to other Eumont Gas Proration Units.

(5) That a majority of all parties owning working interests and royalty interests in the above-described proration unit have agreed to communitization.

(6) That the applicant has made diligent efforts to communitize all Eumont Gas Pool interests in the above-described 200-acre unit, but has been unable to obtain the consent of all persons owning interests therein.

(7) That after diligent search and inquiry on the part of the applicant, there remain several persons owning interests in the above-described 200-acre unit whose identities and/or addresses are unknown.

(8) That all known parties with known addresses owning an interest in the above-described 200-acre unit were given actual notice of the hearing in this case, and the Commission has received no objection to the approval of the subject application.

(9) That approval of the subject application will neither cause waste nor impair correlative rights, and denial of the application would tend to deprive the owners in said unit of the opportunity to recover their just and equitable share of the hydrocarbons in the Eumont Pool.

IT IS THEREFORE ORDERED:

(1) That the interests of all persons having the right to drill for, produce, or share in the production of dry gas and associated liquid hydrocarbons, or either of them, from the Eumont Gas Pool underlying the 200-acre non-standard gas proration unit created by Order No. R-1663 be and the same are hereby force-pooled.

(2) That this Order, as well as the allowable assigned to this non-standard gas proration unit by Order No. R-1663, shall become effective on July 1, 1960.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.
