**AMENDED**  
*Administrative Order NSL-3579*

Dear Mr. Dolan:

Reference is made to your letter of November 18, 1995 requesting two well location changes and a minor correction to Division Administrative Order NSL-3579, dated October 12, 1995, which order approved Chevron to drill its proposed Eunice Monument South Unit Well Nos. 621, 641, and 649 at unorthodox oil well locations for the purpose of completing an efficient injection/production pattern within the Eunice Monument South Unit Waterflood Project (established by Division Order No. R-7766, dated December 27, 1984) in Sections 5 and 6, Township 21 South, Range 36 East, NMPM, Eunice Monument-Grayburg-San Andres Pool, Eunice Monument South Unit Area, Lea County, New Mexico.

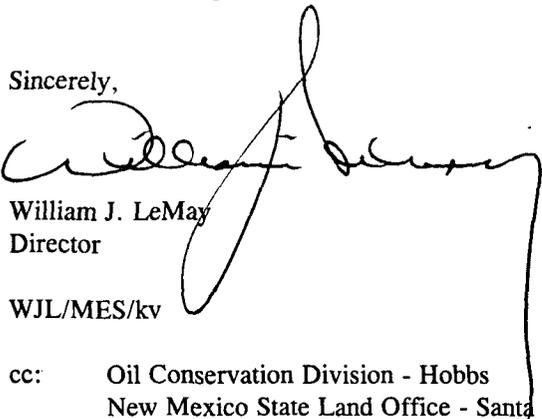

It is our understanding that the two location changes were due to certain obstructions, such as roads, power lines, and gas transmission lines, encountered when the approved locations were actually staked.

By the authority granted me under the provisions of General Rule 104.F(1), said Order No. NSL-3579 is hereby amended to reflect the following:

Well No.	Footage Location	Section	Unit	Dedicated 40-Acre Tract
621	2800' FSL - 185' FEL	6	P	Lot 16
641	1505' FSL - 1155' FWL	5	T	NW/4 SW/4
649	210' FSL - 40' FEL	6	X	SE/4 SE/4

All other provisions of said Order NSL-3579 shall remain in full force and effect until further notice.

Sincerely,

  
William J. LeMay  
Director

Attention: M. E. Stogner

Pursuant to our telephone conversation on Monday, November 6, 1995, the following well locations are offered as revised locations for previously approved unorthodox wells under administrative order NSL-3579.

Eunice Monument South Unit, Eunice Monument Grayburg-San Andres Pool, Township 21 South, Range 36 East, Lea County New Mexico

Wellno.	Staked Location	Comment
621	2800' FSL & 185' FEL Section 6	(revised from original)
641	1505' FSL & 1155' FWL Section 5	(no change)
649	210' FSL & 40' FEL Section 6	(revised from original)

At the time of staking, existing power lines, gas transmission lines, roads, and other obstructions prevented the wells from being staked as originally proposed. The proposed 20 acre infill wells are located within the interior of an existing 14,190 acre waterflood unit and are surrounded on all sides by unit wells. The staked locations noted above, remain in the previously approved unit letter and were moved only a few hundred feet to miss surface / near surface obstructions.

By your previous verbal approval, we are proceeding ahead with plans to drill the wells as stated at the above noted locations.

Sincerely,

Jimmy D. Dolan  
Sr. Petroleum Engineer  
Chevron U.S.A., Inc.

Attention: Andrew McCarty

*Administrative Order NSL-3579*

Dear Mr. McCarty:

Reference is made to your application dated September 28, 1995, for three unorthodox oil well locations for the purpose of completing an efficient injection/production pattern within your Eunice Monument South Unit Waterflood Project Area, established by Division Order No. R-7766, dated December 27, 1984.

These three wells are to be located in Township 21 South, Range 36 East, NMPM, Eunice Monument-Grayburg-San Andres Pool, Eunice Monument South Unit Area, Lea County, New Mexico.

Well No.	Footage Location	Section	Unit	Dedicated 40-Acre Tract
621	2650' FSL - 10" FEL	6	p	Lot 16
641	1505' FSL - 1155" FWL	5	T	NW/4 SW/4
649	10" FS & EL	6	X	SE/4 SE/4

By the authority granted me under the provisions of General Rule 104 F.(1), the above-described unorthodox oil well locations are hereby approved.

Sincerely,

William J. LeMay  
 Director

WJL/MES/kv

*Per your request, please make note of the units error on the originally approved unorthodox well locations.*
