Gentlemen:

Administrative approval, to Rule 104, D. II. is requested for the captioned well to simultaneously dedicate Eumont Gas Pool production to the previously approved non-standard 320-acre gas spacing and proration unit (NSP-390). This well is located 1980' FNL & 990' FWL of Section 18, T-19-S, R-37-E.

This well is staked at a standard location from the Lease Lines but is less than 330' to the quarter quarter section line due to the fact that there is only 317.42 acres in this proration unit and 38.68 acres in unit letter E. It will be completed in the Penrose formation.

Attached is Form C-102. Any questions concerning this request should be directed to me at (915) 688-4606.

Yours very truly,

C. W. Howard  
Engineer Assistant
