**Midland, Texas 79702**  
**Attention: Dorothea Logan**

*Administrative Order NSL-3710*

Dear Ms. Logan:

Reference is made to your application dated August 30, 1996, amended by letter dated September 6, 1996, and supplemented by "fax" dated September 10, 1996, all pertaining to Maralo, Inc.'s request for a non-standard oil well location for your proposed Burrows "17" Well No. 1 to be drilled 870 feet from the North line and 1180 feet from the East line (Unit A) of Section 17, Township 17 South, Range 38 East, NMPM, Lea County, New Mexico.

The geologic interpretation submitted with this application indicates that a well drilled at the proposed unorthodox oil well location will be at a more favorable geologic position within the Strawn formation than a well drilled at a location considered to be standard within the proposed standard 40-acre oil spacing and proration unit comprising the NE/4 NE/4 of said Section 17.

The application has been duly filed under the provisions of Rule 104.F of the General Rules and Regulations of the New Mexico Oil Conservation Division ("Division"), revised by Division Order No. R-10533, issued by the Oil Conservation Commission in Case 11,351 on January 18, 1996.

By the authority granted me under the provisions of Division General Rule 104.F(2), the above-described unorthodox Strawn oil well location is hereby approved.

Sincerely,

*WJL*  
  
William J. LeMay  
Director
