RE: Request for Administrative Approval
Unorthodox Well Location
Proposed Avion '22' Federal Well No. 1
1036' FSL & 364' FEL
Sec. 22, T23S, R32E
Lea County, New Mexico

Mr. Stogner:

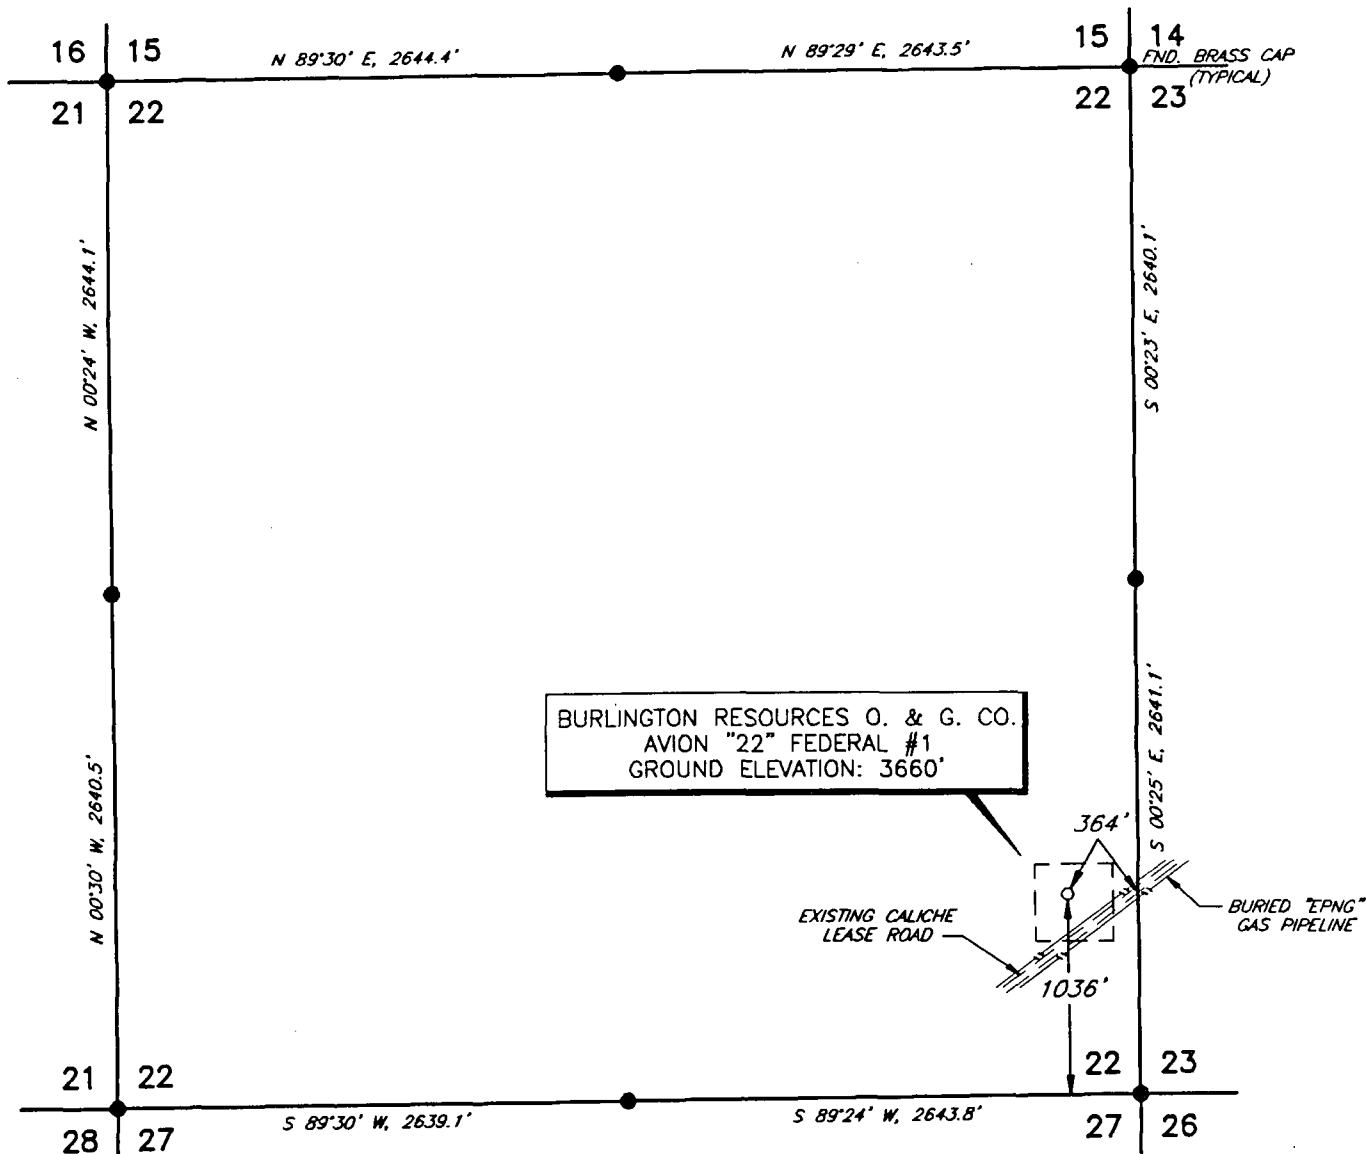

Burlington Resources Oil & Gas Company respectfully request administrative approval for our proposed Avion '22' Federal well no. 1. This well is intended to be a Bone Spring/Delaware producer on a 40 acre proration unit. The original location was 330' FEL & 990' FSL; however, due to the location of the EPNG gas pipeline, as indicated on the enclosed map, the location had to be moved to the now permitting location of 1036' FSL & 364' FEL. This well is governed by statewide rules and a legal location is to be 330' from the quarter/quarter governmental section. Due to the pipeline, the now intended location is 46' unorthodox to the north boundary of the 40 acre quarter/quarter section. Since this move encroaches on the internal boundary of the lease, no other notification is required. This lease covers 480 acres located as the North/2 of Section 22, plus the SE quarter, as indicated on the enclosed map.

Should you have any questions, or need additional information, please do not hesitate to contact me at 915-688-6943.

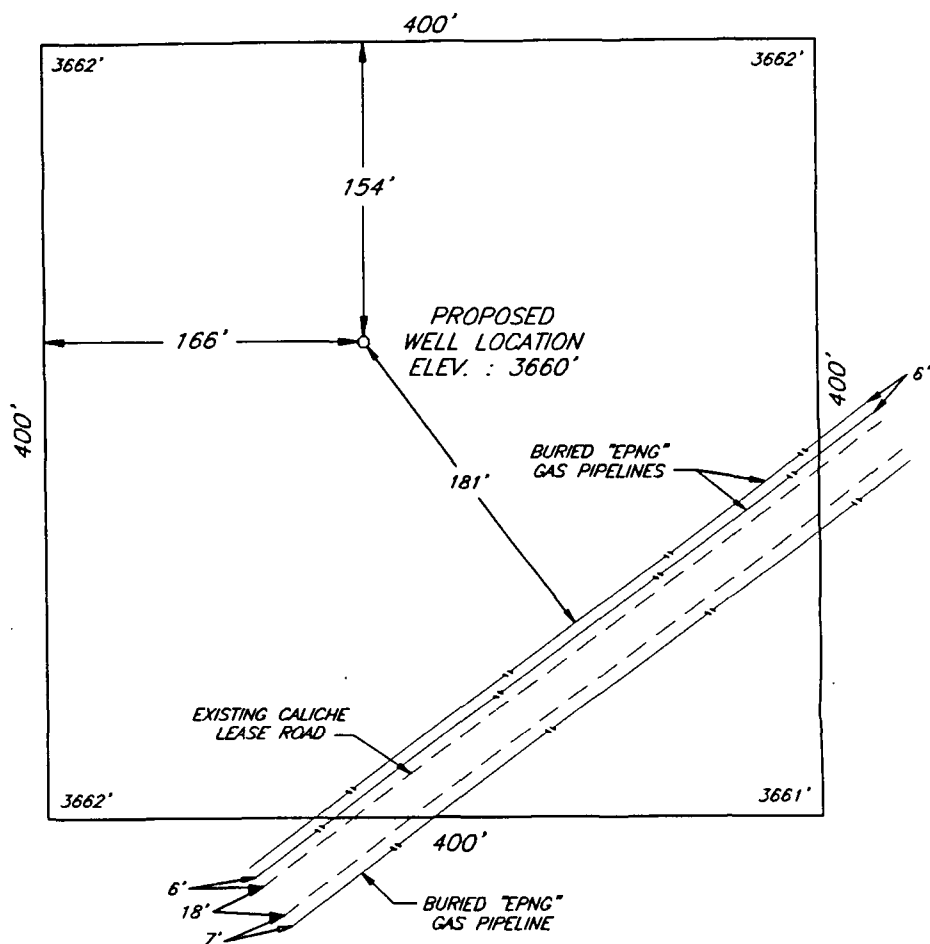

Sincerely,

Donna J. Williams
