*Administrative Order NSL-3890*

Dear Mr. Bayless:

Reference is made to your application dated October 21, 1997 for a non-standard gas well location for your proposed Tiger Well No. 1 (API No. 30-04529495) to be drilled 1325 feet from the South line and 1635 feet from the East line (Unit J) of Section 35, Township 30 North, Range 13 West, NMPM, to test the Pictured Cliffs formation, San Juan County, New Mexico. The SE/4 of said Section 35 shall be dedicated to the well to form a standard 160-acre gas spacing and proration unit for the Undesignated Fulcher Kutz-Pictured Cliffs Pool.

The application has been duly filed under the provisions of Rule 104.F of the General Rules and Regulations of the New Mexico Oil Conservation Division ("Division").

By the authority granted me under the provisions of Division General Rule 104.F(2), the above-described unorthodox gas well location is hereby approved.

Sincerely,

A handwritten signature in black ink, appearing to read "William J. LeMay", written over a large, stylized flourish that extends downwards and to the right.
