Re: Application for Unorthodox Gas Well Location(s),
Application to Amend Order No. SD-200816
Increased Well Density & Simultaneous Dedication
Jalmat (Tansil-Yates-Seven Rivers) Gas Pool ("Jalmat Gas Pool")

Dear Mr. Fesmire:

By Division Order SD-200816 dated June 5, 2008, the Division authorized EnerVest Operating, L.L.C. ("EnerVest") to drill its J. W. Sherrell Well No. 12 (API No. 30-025-38882) at a standard gas well location 660 feet from the South line and 1815 feet from the East line (Unit O) of Section 31, Township 24 South, Range 37 East, NMPM to test the Jalmat Gas Pool. The order further authorized EnerVest to simultaneously dedicate the J. W. Sherrell No. 12 and the existing J. W. Sherrell No. 9 (API No. 30-025-26070) located at a previously approved unorthodox gas well location 2250 feet from the South line and 1650 feet from the East line (Unit J) of Section 31, to an existing 160-acre non-standard gas proration unit ("GPU") in the Jalmat Gas Pool comprising the SE/4 of Section 31. Division Order No. R-5948 dated March 16, 1979 approved the non-standard GPU and the unorthodox gas well location for the J. W. Sherrell No. 9.

EnerVest hereby requests that Order No. SD-200816 be amended to authorize:

- a) the drilling of two additional gas wells within the subject GPU. EnerVest proposes to drill its J. W. Sherrell No. 13 at an unorthodox gas well location 2422 feet from the South line and 971 feet from the East line (Unit I), and its J. W. Sherrell No. 14 at an unorthodox gas well location 990 feet from the South line and 1040 feet from the East line (Unit P) of Section 31; and
- b) the simultaneous dedication of the J. W. Sherrell Wells No. 9, 12, 13 and 14 to the subject GPU.

The wells and GPU are located within the Jalmat Gas Pool. This pool is currently governed by special pool rules established by Order No. 8170-P effective December 14,

2001. Well location requirements and well density provisions are contained within Rule No. (3) of the special pool rules.

The unorthodox location for the J. W. Sherrell No. 13 is necessitated by the presence of electric power lines that traverses the NE/4 SE/4 of Section 31 in a north-south and east-west direction. This surface feature is shown on the attached land plat. The unorthodox location for the J. W. Sherrell No. 14 is also necessitated by the presence of an electric power line and a pipeline that traverse the SE/4 SE/4 of Section 31 in a north-south direction. These surface features are also shown on the attached land plat. The affected offset acreage for the J. W. Sherrell No. 13 is the NE/4 of Section 31, which is operated by Lewis B. Burluson, Inc. The location for the J. W. Sherrell No. 14 is unorthodox with respect to the interior quarter-quarter section line, and therefore, does not affect offset operators.

In support of the application, EnerVest states the following:

The existing J. W. Sherrell No. 9 is currently marginally productive. During January-June, 2008 the J. W. Sherrell No. 9 produced at an average rate of approximately 62 MCF of gas per day;

The J. W. Sherrell No. 12 has been drilled, but has not yet been completed;

Recent drilling in this area by EnerVest and other operators has demonstrated that there is little or no interference between gas wells spaced on 40 acres within the Jalmat Gas Pool. Consequently, EnerVest believes that the drilling of the proposed J. W. Sherrell Wells No. 13 and 14 are necessary in order to effectively and efficiently drain the gas reserves from the Jalmat Gas Pool within the NE/4 SE/4 and SE/4 SE/4 of Section 31;

Due to inefficient drainage and the marginally productive nature of the existing well, EnerVest believes that no offset operator will be adversely affected by the approval of this application;

Attachment No. 1 is a plat that identifies the subject GPU, and the wells that are to be simultaneously dedicated to this unit;

Attachment No. 2 is a plat that identifies the subject GPU and all offsetting GPU's in the Jalmat Gas Pool. As shown on Attachment No. 2, there are four offsetting GPU's that are operated by EnerVest. **Please be advised that EnerVest owns 100% of the working interest in these four offsetting GPU's. Consequently, there are no additional working interest owners to notify.**

Attachment No. 2A is a compilation of all active Jalmat Gas Pool producing wells within the offsetting GPU's;

Notice of this application has been provided to Lewis B. Burleson, Inc., and Herman L. Loeb.

A copy of the notice letter that has been sent to all parties is enclosed, as is Attachment No. 3, which is a list of the parties to whom notice has been provided. Upon obtaining the signed return receipt cards, they will be forwarded to the Oil Conservation Division.

Also enclosed is a copy of Order No. SD-200816 and a Form C-102 for the proposed J. W. Sherrell No. 13 and the J. W. Sherrell No. 14.

In summary, EnerVest Operating, L.L.C. believes that approval of the application is in the best interest of conservation, prevention of waste and protection of correlative rights.

If you should have any questions, please call me at (713) 495-6530 or E-Mail me at RYOUNG@ENERVEST.NET.

Sincerely

Re: EnerVest Operating, L.L.C.
Application for Unorthodox Gas Well Location(s),
Application to Amend Order No. SD-200816
Increased Well Density & Simultaneous Dedication
Jalmat (Tansil-Yates-Seven Rivers) Gas Pool (79240)
Section 31, T-24 South, R-37 East, NMPM,
Lea County, New Mexico

Ladies and Gentlemen:

Enclosed please find a copy of the application filed by EnerVest Operating, L.L.C. for authorization to dedicate its proposed J. W. Sherrell Well No. 13, located at an unorthodox gas well location 2422 feet from the South line and 971 feet from the East line (Unit I) of Section 31, and its proposed J. W. Sherrell Well No. 14, located at an unorthodox gas well location 990 feet from the South line and 1040 feet from the East line (Unit P) of Section 31, both in Township 24 South, Range 37 East, NMPM, Lea County, New Mexico, to an existing 160-acre non-standard gas spacing and proration unit in the Jalmat Gas Pool comprising the SE/4 of Section 31, Township 24 South, Range 37 East, NMPM. Pursuant to the authority granted by Division Order No. SD-200816 dated June 5, 2008, this unit is currently dedicated to EnerVest Operating, L.L.C.'s J. W. Sherrell Wells No. 9 and 12 located respectively, in Units J and O of Section 31.

As the owner of an interest that may be affected by the proposed unorthodox gas well locations and simultaneous dedication, you are being provided notice as per Division rules and regulations. Objections must be filed in writing at the Division's Santa Fe office within 20 days from the date this notice was sent to you. If no objection is received within twenty days after the filing of this application and proof of notice with the Division, the application may be approved.

If you should have any questions, please call me at (713) 495-6530.

Sincerely,

Ronnie L. Young

Administrative Order SD-200816

Re: J.W. Sherrell Well No. 12
API No. 30-025-38882
Unit O, Section 31, Twsp 24S, Range 37E
Lea County

Dear Mr. Young:

Reference is made to the following:

(a) your application (**administrative simultaneous dedication [SD] application reference No. pKVR08-12357881**) submitted to the New Mexico Oil Conservation Division (the Division) in Santa Fe, New Mexico on May 2, 2008, and

(b) the Division's records pertinent to your request, including, but not limited to, the Division's records pertinent to Order R-5948, issued in Case No. 6465 on March 16, 1979.

Enervest Operating, L.L.C. (Enervest) has requested to simultaneously dedicate its proposed J.W. Sherrell Well No. 12, API No. 30-025-38882 (the proposed well), be drilled at a standard gas well location 660 feet from the South line and 1815 feet from the East line (Unit O) of Section 31, Township 24 South, Range 37 East, NMPM, in Lea County, along with the existing J.W. Sherrell Well No. 9 (API No. 30-025-26070), a gas well located 2250 feet from the South line and 1650 feet from the East line (Unit J) of the same section, to an existing, non-standard 160-acre gas spacing unit in the Jalmat-Tansill/Yates/Seven Rivers Gas Pool (79240), comprising the SE/4 of said Section 31. This 160-acre non-standard gas spacing unit was established by Order No.R-5984.

Oil Conservation Division * 1220 South St. Francis Drive
* Santa Fe, New Mexico 87505

* Phone: (505) 476-3440 * Fax (505) 476-3462* <http://www.emnrd.state.nm.us>

June 5, 2008

Page 2

Division approval of simultaneous dedication is required because Rule 3(C) of the Special Pool Rules for the Jalmat Gas Pool, as provided in Order R-8170-P, adopted December 14, 2001, prohibits the dedication of more than one gas well per 160 acres in that pool.

Your application has been duly filed under the provisions of Division Rules 104.D(3) and 1210.A, and Rule 4(B) of the Special Pool Rules for the Jalmat Gas Pool.

It is our understanding that you are seeking simultaneous dedication of this unit to the two wells described for geological reasons, in order to prevent waste and maximize production from this unit. As required by Rule 4(B) of the applicable pool rules, you have furnished evidence to support your conclusion that the granting of this application will prevent waste and will not impair correlative rights.

We also understand that you have given due notice of this application to all "affected persons," as defined in Rule 1210.A(2)(a), in all spacing units in the Jalmat adjoining the proposed unit.

Pursuant to the provisions of Division Rule 104.D(3) and Rule 4(B) of the Special Pool Rules for the Jalmat Gas Pool, the above-described simultaneous dedication is hereby approved.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

Sincerely,

Mark E. Fesmire, P.E.

Director
