Dear Wayne,

This message is submitted to the New Mexico Oil Conservation Division (OCD) on behalf of Targa Midstream Services, LP, by Larson & Associates, Inc., its consultant, to provide notice to the OCD that closure of the north (#2) brine pond at the Monument Gas Plant (GW-025) will commence on Wednesday, December 10, 2008. Installation of two (2) monitoring wells is scheduled for December 18 and 19, 2008. Additional notice will be sent at least 24 hours prior to collecting groundwater samples from the new monitoring wells. Please contact myself or Cal Wrangham at (432) 688-0542 if you have questions.

Sincerely,

Mark J. Larson
