*Pool  
46830 -  
40 Acre Oil  
Spacing*

Dear Mr. Brooks:

Marbob Energy Corporation requests approval for the N B Tween State #5 unorthodox location described above. The location was originally staked at 1650' FSL 1650 FWL at an orthodox location. This location was determined to be unusable due to the fact U.S. Highway #82 ran east to west through the location. We reviewed alternate possible locations and determined a location of 1550 FSL 1650 FWL would provide the closest location. As you will note in your review, there is already an N B Tween #4 well located 2310 FSL 2310 FWL in the same proration unit and this location conforms to our 20 acre spacing pattern for drilling wells on this acreage block. This location is unorthodox and we are requesting permission to drill this footage.

The formation that we will attempt and believe we will complete in is the Yeso formation. This formation is currently contained in the Artesia Glorietta Yeso pool. We are the operator of all of the offsetting proration units in this pool. Enclosed is a copy of form C-102 showing the location and proposed proration unit. As an abundance of caution we have notified all of the working owners in each tract as to the Yeso formation since there are some differences in ownership between the various parties in the offset proration units. Also, enclosed is a map showing the proposed proration unit and the offset proration units. The operator(s) in these affected and offset unit in the Artesia Glorietta Yeso-pool is Marbob Energy Corporation.

Thank you for your help in this matter.

Sincerely,  
  
William Miller  
Landman

Dear Mr. Miller:

Your NSL applications for these two wells, which are located in the NE/4 SW/4 and SE/4 NW/4 of Sec 25-17S-28E, states that you notified all the working owners and operators in each tract.

Please send me the list of those notified for each of the two NSL's.

Thanks,

Terry G. Warnell
