**Subject:** RE: Williams Glade CS (GW-321) - tank replacement

Ingrid,

Happy New Year!

Do you mean as far as modification notification? If so, yes, this is good enough. Just make sure that the modification is reflected on the renewal application.

I will scan this into the GW-321 file.

llowe

**Subject:** Williams Glade CS (GW-321) - tank replacement

Leonard –

The 300 bbl produced water tank at Glade Compressor Station (GW-321) is being replaced with a 210 bbl produced water tank. At the same time, Williams will be installing a new synthetic liner in the containment area.

The next Discharge Plan Renewal application is due to you in February 2010. Is this sufficient info for you, or do you need anything more formal?

Thanks,  
Ingrid
