12. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompilation.

**BP America Production Company request permission to surface commingle production the Basin Fruitland Coal and Blanco Mesaverde Pools from our Neil A Wells No. 9, 9R, & 23. Surface commingling Basin Fruitland Coal production will consist of the Neil Well No. 23 API 30-045-28007; and Blanco Mesaverde production will be from the Neil A Well No. 9 API 30-045-11001 and from the Neil A Well No. 9R API 30-045-23950. The production from each well will be metered prior to commingling then the commingled production will flow into through the separator where the liquids will be removed. The commingled gas will then be sent through compression prior to entering the sales meter. Please reference the attached schematics reflecting the Current Facilities Layout and the Proposed Surface Commingling Layout provided for your reference.**

The working interest, royalty and overriding royalty interest owners in the subject wells are identical. The proposed commingling of production is to reduce operating expenses between the wells and will result in increased economic life of the wells.

BLM has also been notified of this proposal by copy of BLM Form 3160-5.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
