**Subject:** FW: 1/3 mile radius Public Notice Final Listing  
**Attachments:** OCD Labels-4.docx; OCD Labels-5.docx; OCD Lables-6.docx; Returned Mail-3.pdf; Returned Mail-4.pdf

Good afternoon, Leonard. I am attaching the final list of the public notices we mailed out 7/16/2009. Also, there are copies of some that have come back as not deliverable. I apologize it took so long for me to get this information to you, but I am actually working out of another office that is off site from Capitan's yard. I do come to this office as needed, so please let me know if there is anything else I can do.

Thank you.

Dear Sir,

Please find the original newspaper page that our ad was printed on. Also, we have enclosed copies of the pictures we took of the public notices and signs.

We are still working with the abstract office regarding the list of landowners. We will get those sent out as soon as possible, and send you the affidavits.

Sincerely,

Erin Smith  
Administrator

## PUBLIC NOTICE

**CAPITAN CHEMICAL, LLC, 3206 ENTERPRISE DRIVE, HOBBS, NEW MEXICO 88240**, ha presentado un aplicacion al departamento de energia y recursos naturales del estado de Nuevo Meico, para un nuevo plan de descarge (GW-384) dando permiso de utilizar una instalacion para fabricacion y almacenamiento localizado e la Sec. 21, T 18 S, R 38 E, (2,300' FNL, 730" FWL), en el condado Lea, Nuevo Mexico. Esta instalacion esta aproximadamente 3 millas NNW de el centro de Hobbs.

El uso de esta instalacion sera para producir y distribuir quimicos para la industria de petroleo e gas. Los productos que seran producidos son corrosion inhibitors, scale inhibitors, demulsifiers, paraffin solvents/dispersants e pour point depressants, surfactants, anti-foulants y foamers especiales. Generaciones de desechos consisten de agua usada para la limpieza y es eliminada comercialmente (approx. 250 gallons por ano). En esta instalacion todos los liquidos son almacenados en diverso tipos de depositos (330 gallon tote tanks, 55 gallon steel and poly drums, 5 gallon poly pails) sobre la tierra hasta que esten completos y listos para envio. Para doble seguridad todo es almacenado en recipientes. La profundidad del agua es 60 pies y el TDS es 200 ppm.

Cualquier persona interesada puede obtener informacion, hacer sugerencias, o solicitar ser colocado en una lista de direcciones para recibir futuros avisos sobre este tema debe ponerse en contacto con Leonard Lowe en la siguiente direccion: New Mexico OCD, 1220 South St. Francis Drive, Santa Fe, NM 87505, Telefono (575) 476-3492. El departamento OCD aceptara sugerencias y declaraciones con respecto a esta renovacion.

## PUBLIC NOTICE

**CAPITAN CHEMICAL, LLC, 3206 ENTERPRISE DRIVE, HOBBS, NEW MEXICO 88240**, has submitted an application to the New Mexico Energy and Natural Resources Department, for a new discharge plan permit (GW-384) manufacturing and storage facility located in Sec. 21, T 18 S, R 38 E, (2,300' FNL, 730' FWL) Lea County, N.M. The physical address of the facility is 3206 Enterprise Drive, Hobbs, New Mexico 88240. The facility is approximately 3 miles NNW of downtown Hobbs.

The facility is used to produce and distribute chemicals for the oil and gas industry. Products produced are corrosion inhibitors, scale inhibitors, demulsifiers, paraffin solvents/dispersants and pour point depressants, surfactants, anti-foulants and specialized foamers. Waste generations consists of wash water (floor mopping, cleaning) and is disposed of commercially. (Approx. 250 gallons per year) All liquids at the facility are stored in above ground storage tanks, tote tanks (330 gal.), steel and poly drums (55 gal.) steel and poly pails (5 gal.) until shipment is completed. All ar stored in secondary containments: The water depth is 60 ft. The TDS is 200 ppm.

Any interested person or persons may obtain information: submit comments or request to be placed on a facility-specific mailing list for future notices by contacting Leonard Lowe at the New Mexico OCD at 1220 South St. Francis Drive, Santa Fe, New Mexico 87505, Telephone (575) 476-3492. The OCD will accept comments and statements of interest regarding the renewal and will create a facility-specific mailing list for persons who wish to receive future notices.

(GW-384) Capitan Chemical LLC, 3206 N. Enterprise Drive, Hobbs N.M. 88241 has submitted an application for a new discharge plan for their Oil and Gas Service Company, located in unit letter L of Section 21, Township 18 South, Range 38 East, NMPM, Lea County, New Mexico. The facility blends proprietary formulations from various raw materials and intermediate products supplied by various sources for the oil and gas industry. The facility procures and maintains approximately 8 - 10 containers of acids and caustics, 700 gallons of detergents, 1600 gallons of solvents and 3500 gallons of paraffin/emulsion breakers. Liquids other than water shall be maintained in a status as to prevent contamination to surface and ground water quality, including vadose zones. Groundwater most likely to be affected by a spill, leak or accidental discharge is at a depth of approximately 100 feet, with a total dissolved solids concentration of approximately 60 mg/L. The discharge plan addresses how oilfield products and waste will be properly handled, stored, and disposed of, including how spills, leaks, and other accidental discharges to the surface will be managed in order to protect fresh water.

(GW-276) Hydrostatic Pipe Service, Inc. 3030 West Marland, Hobbs, N.M. 88240 has submitted a renewal discharge plan application for their previously expired permit for their Oil and Gas Service Company, located in SE/4 SW/4 of Section 32, Township 18 South, Range 38 East, NMPM, Lea County, New Mexico. The facility stores and maintains trucks used to test tubing in oil and gas wells. Approximately 1200 gallons/year of wash down water, 360 gallons/year of used motor oil, 7000 gallons of diesel and 5000 gallons/year of brine water are used, generated and stored on site. Groundwater most likely to be affected by a spill, leak or accidental discharge is at a depth of approximately 34 feet, with a total dissolved solids concentration of approximately 1310 mg/L. The discharge plan addresses how oilfield products and waste will be properly handled, stored, and disposed of, including how spills, leaks, and other accidental discharges to the surface will be managed in order to protect fresh water.

(GW-377) Southern Union Gas Services, Ltd., 301 Commerce Street, Suite 700, Fort Worth Texas 76102, has submitted an application for a new discharge plan for their Adobe compressor station, operating at 330 HP, located in unit letter K of Section 23, Township 20 South, Range 38 East, NMPM, Lea County, New Mexico, approximately 8 miles northeast of Eunice. The facility provides natural gas compression, removal of excess liquids, the measuring and transport of gas to pipelines. Approximately 100 - 200 gallons/month of used oil, 78-200 gallons/month of wash/storm water and 50 - 100 bbl/month of gas liquids will be generated on site along with other solid wastes. The discharge plan summarizes the specifics of generated waste at this facility. Groundwater most likely to be affected by a spill, leak or accidental discharge is at a depth of approximately 20 - 75 feet, with a total dissolved solids concentration of 375 - 630 mg/L. The discharge plan addresses how oilfield products and waste will be properly handled, stored, and disposed of, including how spills, leaks, and other accidental discharges to the surface will be managed in order to protect fresh water.

(GW-381) Knight Fishing Services, 1718 S. Dal Paso, Hobbs New Mexico, 88240 has submitted an application for a new discharge plan for their Oil and Gas Service Company, located in Unit Letter M in Section 2, Township 19 South, Range 12 West, NMPM, Lea County, New Mexico. The facility is a fishing tool string supplier to the oil and gas service industry. Approximately 1000 gallons of diesel, 300 gallons of hydraulic oil, and 500 gallons of Unichem 9120 are to be stored onsite and to be maintained within bermed areas with secondary containment and not to be discharged on to the ground. Groundwater most likely to be affected by a spill, leak or accidental discharge is at a depth of approximately 35 feet, with a total dissolved

or accidental discharge is at a depth of approximately 34 feet, with a total dissolved solids concentration of approximately 1310 mg/L. The discharge plan addresses how oilfield products and waste will be properly handled, stored, and disposed of, including how spills, leaks, and other accidental discharges to the surface will be managed in order to protect fresh water.

(GW-377) Southern Union Gas Services, Ltd., 301 Commerce Street, Suite 700, Fort Worth Texas 76102, has submitted an application for a new discharge plan for their Adobe compressor station, operating at 330 HP, located in unit letter K of Section 23, Township 20 South, Range 38 East, NMPM, Lea County, New Mexico, approximately 8 miles north-east of Eunice. The facility provides natural gas compression, removal of excess liquids, the measuring and transport of gas to pipelines. Approximately 100 - 200 gallons/month of used oil, 78-200 gallons/month of wash/storm water and 50 - 100 bbl/month of gas liquids will be generated on site along with other solid wastes. The discharge plan summarizes the specifics of generated waste at this facility. Groundwater most likely to be affected by a spill, leak or acci-

dental discharge is at a depth of approximately 20 - 75 feet, with a total dissolved solids concentration of 375 - 630 mg/L. The discharge plan addresses how oilfield products and waste will be properly handled, stored, and disposed of, including how spills, leaks, and other accidental discharges to the surface will be managed in order to protect fresh water.

(GW-381) Knight Fishing Services, 1718 S. Dal Paso, Hobbs New Mexico, 88240 has submitted an application for a new discharge plan for their Oil and Gas Service Company, located in Unit Letter M in Section 2, Township 19 South, Range 12 West, NMPM, Lea County, New Mexico. The facility is a fishing tool string supplier to the oil and gas service industry. Approximately 1000 gallons of diesel, 300 gallons of hydraulic oil, and 500 gallons of Unichem 9120 are to be stored onsite and to be maintained within bermed areas with secondary containment and not to be discharged on to the ground. Groundwater most likely to be affected by a spill, leak or accidental discharge is at a depth of approximately 35 feet, with a total dissolved solids concentration of approximately 1000 mg/L. The discharge plan addresses how oilfield products and

waste will be properly handled, stored, and disposed of, including how spills, leaks, and other accidental discharges to the surface will be managed in order to protect fresh water.

The NMOCD has determined that the application is administratively complete and has prepared a draft permit. The NMOCD will accept comments and statements of interest regarding this application and will create a facility-specific mailing list for persons who wish to receive future notices. Persons interested in obtaining further information, submitting comments or requesting to be on a facility-specific mailing list for future notices may contact the Environmental Bureau Chief of the Oil Conservation Division at the address given above. The administrative completeness determination and draft permit may be

address between 8:00 a.m. and 4:00 p.m., Monday through Friday, or may also be viewed at the NMOCD web site <http://www.emnrd.state.nm.us/ocd/>. Persons interested in obtaining a copy of the application and draft permit may contact the NMOCD at the address given above. Prior to ruling on any proposed discharge permit or major modification, the Director shall allow a period of at least thirty (30) days after the date of publication of this notice, during which interested persons may submit comments or request that NMOCD hold a public hearing. Requests for a public hearing shall set forth the reasons why a hearing should be held. A hearing will be held if the Director determines that there is significant public interest.

If no public hearing is held, the Director will approve or disapprove the proposed permit based on information available, including all comments received. If a public hearing is held, the director will approve or disapprove the proposed permit based on information in the permit application and information submitted at the hearing.

Erin,

Each of these notices will have a 30 day minimum posting time.

It would be in the overall best interest if you could publish the newspaper notice as soon as possible. Ideally that would have been the first notice you should have posted.

All these notices are supposed to have been published/posted within 15 days of the agency determining the application to be Administratively Complete:

GW-348 was determined Admin. Complete on September 4, 2008.

I understand that there may be some time frame issues in obtaining, in this case, addresses for landowners and that is workable. But with notices that have no dependent information (i.e. sign posting, and newspaper publication) should have been posted as soon as possible, NOT four months later.

Please publish.

I'm sorry. The public notices were posted today, January 13, 2009.

I will scan the affidavits once we get the letters out and start receiving them back. That will be easier for everyone. Thanks for the suggestion.

We have been working on trying to get the listing for the notices so much that we have not yet published the legal notice in the paper. As soon as we get that done, I will email you the proof.

Thank you.

Erin,  
What date were all these postings set? They have to remain there for at least 30 days. Then they can be removed.  
Please forward me the posting dates.

You can send ONE e-mail with all the scanned affidavits once you have received them back. That'll make them easier to track instead of accounting for each one once they are done.

What is the status of receiving the proof of publication affidavit from your publish (in the Hobbs Sun-News paper) public notice? Once you receive that you can either send it in the mail or scan it an e-mail. If you scan it and if the notary signature is stamped make sure to highlight the stamp prior to sending. This will ensure that it was stamped (press stamped).

I will be awaiting your responses.

Good morning, Leonard.

Here are the photos of the signs we posted. We posted a Public Notice at the Hobbs City Hall. We also hung signs on the gate of our yard which are visible from the street. Please let me know if there is anything else we need to do.

Also, we are still in the process of getting the list of property owners. As soon as we have that list, we will send out the letters and begin forwarding you the information.

Thank you.

### Public Notice

CAPTIVA CHEMICAL, LLC 2086 ENTERPRISE DRIVE, HOBBS, NEW MEXICO 88240, has submitted an application to the New Mexico Energy and Natural Resources Department for a new discharge line permit (SN-394) manufacturing and storage facility located in Sec. 21, T.18 S. R. 38 E., (2,200' FNL, 700' FNL), Lea County, N.M. The facility is approximately 3 miles NNE of Government Hills.

The facility is used to produce and distribute chemicals for the oil and gas industry. Products produced are corrosive inhibitors, scale inhibitors, demulsifiers, paraffin solvents, dispersants and pour point depressants, surfactants, and liquids and specialized cleaners. Waste generated consists of wash water (floor washing, cleaning) and is disposed of commercially. (Approx. 750 gallons per year) All liquids at the facility are stored in above ground storage tanks, five tanks (330 gal.) steel and poly tanks (55 gal.) steel and poly tanks (5 gal.) and aluminum if compatible. All are stored in secondary containment. The water depth is 60 ft. The TDS is 2100 ppm.

Any interested person or person who obtains information, submit comments or request to be placed on a facility-specific mailing list for future notices by contacting Leonard Lowe at the New Mexico OGD at 1220 South St. Francis Drive, Santa Fe, New Mexico 87505, telephone (505) 478-3492. The OGD will accept comments and statements of interest regarding the renewal and will create a facility-specific mailing list for persons who wish to receive further notices.

### AVISO AL PÚBLICO

CAPTIVA CHEMICAL, LLC 2086 ENTERPRISE DRIVE, HOBBS, NEW MEXICO 88240, ha presentado un aplicación al departamento de energía y recursos naturales del estado de Nuevo México, para un nuevo plan de descarga (SN-394) tanto, permiso de utilizar una instalación para fabricación y almacenamiento localizada en la Sec. 21, T.18 S. R. 38 E., (2,200' FNL, 700' FNL), en el condado Lea, Nuevo México. Esta instalación está aproximadamente 3 millas NNE de el centro de Gobierno.

El uso de esta instalación será para producir y distribuir químicos para la industria de petróleo y gas. Los productos que serán producidos son: inhibidores de corrosión, inhibidores de escala, demulsificadores, parafina solventes, dispersantes y para punto de depresión, surfactantes, líquidos y limpiadores especializados. Los residuos generados consisten de agua usada para la limpieza y es eliminada comercialmente (aprox. 750 galones por año). En esta instalación todos los líquidos son almacenados en diversos tipos de depósitos (330 galones tanques de acero, 55 galones tanques de polietileno, 5 galones tanques de aluminio) y todos están en contenedores secundarios. La profundidad del agua es 60 pies y el TDS es 2100 ppm.

Cualquier persona interesada puede obtener información, hacer sugerencias, o solicitar ser colocado en una lista de direcciones para recibir futuros avisos sobre este tema debe ponerse en contacto con Leonard Lowe, de la siguiente dirección: New Mexico OGD, 1220 South St. Francis Drive, Santa Fe, New Mexico 87505, teléfono (505) 478-3492. El departamento OGD aceptará sugerencias y declaraciones con respecto a esta renovación.

Good morning. We are in the process of preparing a 2X3 ft. sign with the public notice in English and Spanish to be posted in front of our office near the street. We will also post one sheet of paper in each English and Spanish of the public notice on the bulletin board at Hobbs City Hall. We are also trying to obtain a listing of all property owners within a 1/3 mile radius of our facility in order to send return receipt letters regarding the public notice. Please let us know if you have any questions. Thanks!

**Subject:** RE: GW-384, Administratively Complete  
**Importance:** High

Mr. J. Hughes,

The OCD had determined your application to be administratively complete on Sept. 4, 2008.

The OCD has yet to receive your version of the public notice for review.

When do we expect to receive your version of public notice?

llowe

**Subject:** GW-384, Administratively Complete

Mr. Joe Hughes,

The submitted discharge plan application has been determined to be Administratively Complete.

Attached are the **Admin Complete Letter**, **DRAFT permit** and the **OCD version of the public notice** for your records.

Please submit to the OCD the applicant version of the public notice so that the OCD can review. Along with the notice submit the name of the newspaper you intend to publish your notice in, the location of your signs and conspicuous area location for review as well.

**\*\*NOTE: THE APPLICANT PUBLIC NOTICE NEEDS TO BE APPROVED BY THE OCD PRIOR TO PUBLISHING. THIS WOULD ENSURE A CORRECT NOTICE IS BEEN PUBLISHED, IF NOT THEN THE OCD WILL REQUIRE THE APPLICANT TO RE-PUBLISH, THUS INCURRING ADDITIONAL COST TO THE APPLICANT\*\***

If you have any questions please call me.
