COOPER Well No. 006
API No: 30-045-20518
Unit F, Section 6, Township 29 North, Range 11 West, NMPM
San Juan County, New Mexico

Pool: BASIN FRUITLAND COAL (GAS) Gas 71629
Names: SOUTH CROUCH MESA FRUITLAND SAND Gas 96754

Reference is made to your recent application for an exception to Rule 12.9A of the Division Rules and Regulations to permit the above-described well to commingle production from the subject pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 12.11A., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion or otherwise required separation of the zones is hereby placed in abeyance.

In accordance with Division 12.11A.(6), the production attributed to any commingled pool within the well shall not exceed the allowable applicable to that pool.

It is our understanding the ownership between these two spacing units is diverse and the method of allocation between pools is contained in this application. The production allocation percentages of oil and gas between these pools shall be supplied to the Division's Santa Fe office within 60 days following completion of this workover.

REMARKS: The operator shall notify the Division's district office upon implementation of commingling operations.

Pursuant to Rule 12.11B, the commingling authority granted herein may be rescinded by the Division Director if conservation is not being best served by such commingling.
