Administrative Order NSL-6005

Re: Skelly Unity Well No. 635
API No. 30-015-
1430 feet FSL and 2230 feet FWL
Unit K, Section 15-17S-31E
Eddy County, New Mexico

Dear Ms. Odom:

Reference is made to the following:

(a) your application (**administrative application reference No. pKAA09-04254848**) submitted to the New Mexico Oil Conservation Division (the Division) in Santa Fe, New Mexico on February 11, 2009,

(b) your amended application submitted on March 9, 2009,

(c) your supplemental email dated March 10, 2009, and

(d) the Division's records pertinent to this request.

COG Operating, LLC (COG) has requested to drill the above-referenced well at an unorthodox oil well location, described above in the caption of this letter. The NE/4 SW/4 of Section 15 will be dedicated to this well in order to form a standard 40-acre spacing unit in the Fren Glorieta-Yeso Pool (26770). This pool is governed by statewide Rule 15.9.A, which provides for 40-acre units, with wells located at least 330 feet from a unit outer boundary. This location is less than 330 feet from the southern unit boundary.

Your application has been duly filed under the provisions of Division Rules 15.13 and 4.12.A(2).

It is our understanding that you are seeking this location because of sand dunes and to avoid interference with existing pipelines.

It is also understood that notice of this application to offsetting operators or owners is unnecessary because of common ownership.

Pursuant to the authority conferred by Division Rule 15.13.B, the above-described unorthodox location is hereby approved.

This approval is subject to your being in compliance with all other applicable Division rules, including, but not limited to Division Rule 5.9.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark E. Fesmire', with a long horizontal line extending to the right.
