## Administrative Order NSL-6015

**Re: W.T. McComack Well No. 28**  
**API No. 30-025**  
**1330 feet FSL and 2310 feet FEL**  
**Unit J, Section 32-21S-37E**  
**Lea County, New Mexico**

Dear Mr. Mobley:

Reference is made to the following:

- (a) your application (**administrative application reference No. pKAA09-06357214**) submitted to the New Mexico Oil Conservation Division (the Division) in Santa Fe, New Mexico on March 4, 2009,
- (b) supplemental information furnished with your email of March 23, 2009, and
- (c) the Division's records pertinent to this request.

Chevron USA, Inc. (Chevron) has requested to drill the above-referenced well at an unorthodox oil well location, described above in the caption of this letter. The SW/4 SE/4 of Section 32 will be dedicated to this well in order to form a standard 40-acre spacing unit in the Penrose Skelly Grayburg Pool (50350). This pool is governed by statewide Rule 15.9.A, which provides for 40-acre units, with wells located at least 330 feet from a unit outer boundary. This location is less than 330 feet from the southern unit boundary.

Your application has been duly filed under the provisions of Division Rules 15.13 and 4.12.A(2).

It is our understanding that you are seeking this location because for engineering reasons, in order to drain reserves that cannot be drained by wells at standard locations.

It is also understood that you have given due notice of this application to all operators or owners who are "affected persons," as defined in Rule 4.12.A(2), in all adjoining units towards which the proposed location encroaches.

Pursuant to the authority conferred by Division Rule 15.13.B, the above-described unorthodox location is hereby approved.

This approval is subject to your being in compliance with all other applicable Division rules, including, but not limited to Division Rule 5.9.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

Sincerely,

Mark E. Fesmire, P.E.  
Director

MEF/db
