Livestock kicked valve open on 2" BSW. Contaminated soil was dug up and moved.

Describe Area Affected and Cleanup Action Taken.\*

3-22-09 Spill ran 20' wide across location and approximately 6' wide by 50' into pasture. Saturated soil was immediately removed. Tetra Tech Environmental was contacted to assess spill area and take soil delineation samples. Pending results of soil samples a work plan will be submitted to both BLM and NMOCD offices for approval.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
