Re: *Application of David H. Arrington Oil & Gas, Inc. for Administrative Approval of an Unorthodox Well Location for its Yellow Humpy Well No. 1, located 2310 feet from the South line and 1479 feet from the West line of Section 15, Township 16 South, Range 36 East, NMPM, Lea County, New Mexico*

Dear Ms. Wrotenbery:

David H. Arrington Oil & Gas, Inc. hereby seeks administrative approval pursuant to the provisions of Division Rule 104 F (2) adopted on January 18, 1996, of an unorthodox well location for all formations developed on 40-acre spacing or proration units for its Yellow Humpy Well No. 1 to be drilled at an unorthodox well location 2310 feet from the South line and 1479 feet from the West line Section 15, Township 16 South, Range 36 East, NMPM, Lea County, New Mexico. A standard 40-acre spacing and proration unit in the Strawn Formation, Undesignated Diamond-Strawn Pool, comprised of the NE/4 SW/4 of said Section 15 will be dedicated to the well (See enclosed Form C-102).

This location is unorthodox because it is governed by the Division's statewide rules which provide for wells on 40-acre spacing units to be located no closer than 330 feet to any boundary of such tract.

Oil Conservation Division
New Mexico Department of Energy,
Minerals and Natural Resources

Page 2

This unorthodox location is required by geological conditions in the Strawn formation. Attached hereto are a Geological Discussion, a Structure Map on the Top of the Strawn and a Strawn Isopach Map which show the small algal mound which is the objective of the proposed well. These attachments show it is necessary to locate the Yellow Humpy Well No. 1 at the proposed unorthodox location to encounter commercial quantities of hydrocarbons.

Since this location is non-standard only toward acreage operated by David H. Arrington Oil & Gas, Inc., as shown on the attached ownership plat, there are no affected parties to whom notification of the application should be provided.

Your attention to this matter is appreciated.

Very truly yours,
