***Administrative Order NSL-4214***

Dear Ms. Bradfield:

Reference is made to the following: (i) your application dated February 5, 1999; and (ii) to a signed waiver of objection from Taurus Exploration U.S.A. that was submitted to the New Mexico Oil Conservation Division's ("Division") office in Santa Fe on February 17, 1999: all concerning Burlington Resources Oil and Gas Company's request for a non-standard gas well location for the proposed Hubbell Well No. 6-R (API No. 30-045-29730) to be drilled 2660 feet from the South line and 1420 feet from the West line (Unit K) of irregular Section 17, Township 29 North, Range 10 West, NMPM, to test the Pictured Cliffs formation, San Juan County, New Mexico. Lots 11 and 12 and the E/2 SW/4 (SW/4 equivalent) of Section 17 is to be dedicated to the well in order to form a standard 161.03-acre gas spacing and proration unit for the Aztec-Pictured Cliffs Pool.

The application has been duly filed under the provisions of Division Rule 104.F.

By the authority granted me under the provisions of Division Rule 104.F(2), the above-described unorthodox gas well location is hereby approved.

Sincerely,

A handwritten signature in cursive script, appearing to read "Lori Wrotenbery".

Lori Wrotenbery  
Director
