Attention: Mr. David Brooks

RE: Unorthodox Location
Administrative Approval Request
Hawg Federal #1
1650' FNL 660' FWL
Section 25, T-19S R-34E
Lea County, New Mexico

Dear Mr. Brooks:

Marbob Energy Corporation requests approval for the Hawg Federal #1 unorthodox location described above. The well is unorthodox because this well was originally drilled as a deep prospect and this is where the geologist deemed to be the best location. The well was drilled to the Morrow formation and recently has been recompleted. The formation that was completed is the Bone Spring formation and there is a special pooling and spacing order for that formation.

Marbob will send notice(s) to affective party(s) in the offset affected proration units. The affected proration unit is the NE/4NE/4 of Section 26 T19S R34E. Notification will be given to that operator/owner. Enclosed is a copy of form C-102 showing the location and proposed proration unit. Also, enclosed is a map showing affected spacing unit(s) and the notice letter.

Thank you for your help in this matter.

Sincerely,

William Miller
Landman

FAX COVER SHEET

To:	Harvey E. Yates Co.	From:	William Miller
Date:	April 6, 2009	Pages:	4
Fax No.:	575 627 2427		

Please review the following documents. Enclosed is an unorthodox notice letter with the application, we intend on filing with the OCD. If Harvey E. Yates would provide a waiver, we would greatly appreciate it. Re-completing up-hole resulted in an unorthodox location due to the special pooling order. If any additional information is needed, please contact us.

Thanks,
William Miller
