April 21, 1999

Richard Kijowski  
1000 East Bellevue Place Apt. #25  
Chicago, IL 60611

Dear Richard Kijowski:

Mallon Oil Company is currently working with the New Mexico Oil Conservation Division to establish a Non-Standard Location Blanket for the following:

IMDA # 701-98-0013  
IMDA # 701-90-0002  
Jicarilla Contract 451  
Jicarilla Contract 452  
Jicarilla Contract 457  
Jicarilla Contract 458  
Jicarilla Contract 459  
Jicarilla Contract 460  
Jicarilla Contract 461  
Jicarilla Contract 462  
Jicarilla Contract 464

The ultimate goal of NSL Blanket is to develop the land in an orderly fashion and maintain steady production, and also prevent unnecessary waste, while protecting the correlative rights of all parties involved.

Under this agreement the well shall be staked no closer than 790' from outer boundary line of the acreage involved (Figure A) and no closer than 10' to each  $\frac{1}{4}$   $\frac{1}{4}$  line (Figure B). Each developmental well of a defined pool must be located on an 160 acre spacing. This agreement will allow Mallon Oil Company to increase vertical limits from surface to the Mesa Verde formation and accommodate all agencies with surface concern.

Please review the above information, sign on the space provided below and return to me at P.O. Box 2797 Durango, CO 81302. Should you have any questions please contact me at 970-382-9100 or via e-mail [cserrano@frontier.net](mailto:cserrano@frontier.net). Thank you for your assistance.

I have read the above and understand the contents of the information provided.
